

5.9 -- STUDENT EARLY RELEASE

ACT 675 of 2003 requires students in grades 9-12 to attend school a full school day. Seniors are expected to maximize their senior year by attending a full day of classes. Early release from school for employment reasons will NOT be approved unless there is an extenuating family circumstance that places an extreme financial hardship on the family.

Parents or guardians who have proof of financial hardship due to their senior attending a full day of classes and wanting their child released early from school must complete the "Request for Early Release" form and schedule an appointment with the high school administration. ACT 675 does not affect students attending vocational education training, college courses and school work-release programs.
