

## 4.12—HEALTH SERVICES

Any child who becomes ill or injured at school shall be cared for by the nurse, or other school personnel. The parents, or a person designated on the student's Emergency Call Card, will be notified to pick up the student if they are found to have an above normal temperature, and/or signs of illness.

In order to minimize the spread of illnesses, students are expected to be free of fever without the use of fever reducing medications for twenty-four hours before returning to school. In the event of severe illness or injury requiring immediate medical attention, every attempt will be made to contact a parent before transporting to a medical facility.
