Students are not expected to meet with all 7 classes each day. The above schedule is to indicate which days of the week students should anticipate work for their classes.

Online Class Expectations

1. Teachers will post class assignments, lessons, and videos by means of **Google Classroom**. Students will download the assignments onto their computer, complete the assignment, and resubmit the assignment back into Google Classroom.
2. Due dates on class assignments will vary from class to class. Students will need to refer to Google Classroom for due dates on class assignments or speak to their teachers.
3. Teachers may also set up **Zoom Meetings** for classes. The Zoom Meetings are created to stay in touch with students, provide further instruction, and answer student questions that may exist. If a student is unable to join a Zoom Meeting, this **will not** negatively affect their grade.
4. If a student is unable to complete assignments in an online format, they will need to contact their teachers for other arrangements to be made.
5. The School District has made arrangements for stronger WiFi access to be available for students during this time. Students can access the school Wifi for free, from the high school's parking lot.
