VAN BUREN SCHOOL DISTRICT

Welcome to the Van Buren School District! It is an honor to serve as superintendent of this outstanding school system. Throughout Arkansas, Van Buren is known as a district of excellence and I am excited to have the opportunity to be part of this continuing legacy.

Our Student Policy Handbook can be found on our district website at www.vbsd.us. The handbook contains general information, rules, regulations and policies of the school district. Please review the contents and indicate that you have done so by signing and returning the section below to the principal's office of your child's school.

Over the years, education has changed substantially but our primary focus on providing a high quality learning experience remains the same. Of course, this is a shared responsibility between the school and home. The stronger the relationship between the two groups, the more likely it will be that your child will have a successful and enriching school year.

It is imperative that you communicate with us when you have a question or concern. Please make sure that you have contact information for your child's teacher(s) and building administrators. If you need assistance from central administrative staff, but are not sure who to contact, please email or call Mrs. Shari Ross at sross@vbsd.us or (479) 474-7942. If you would like to contact me directly, you may do so by sending an email to harold.jeffcoat@vbsd.us.

Let's have a great year! Go Pointers!

Dr. Harold Jeffcoat

The health and physical well-being of Van Buren School District students directly affects their ability to learn. Childhood obesity increases the incidence of adult diseases occurring in children and adolescents such as heart disease, high blood pressure and diabetes. The increased risk carries forward into their adulthood. Research indicates that a healthy diet and regular physical activity can help prevent obesity and the diseases resulting from it. It is understood that the eating habits and exercise patterns of students cannot be magically changed overnight, but at the same time, the board of directors believes it is necessary to strive to create a culture in our schools that consistently promotes good nutrition and physical activity.

The problem of obesity and inactivity is a public health issue. The board is keenly aware that it has taken years for this problem to reach its present level and will similarly take years to correct. The responsibility for addressing the problem lies not only with the schools and the Department of Education, but with the community and its residents, organizations and agencies. Therefore, the district shall enlist the support of the larger community to find solutions which improve the health and physical activity of our students.

Goals

In its efforts to improve the school nutrition environment, promote student health, and reduce childhood obesity, the district will adhere to the Arkansas Rules Governing Nutrition and Physical Activity Standards in Arkansas Public Schools. Adhering to these Rules will include, but is not limited to district efforts to

1. Appoint a district school health coordinator who shall be responsible for ensuring that each school fulfills the requirements of this policy;
2. Implement a grade appropriate nutrition education program that will develop an awareness of and appreciation for nutrition and physical activity throughout the curriculum;
3. Enforce existing physical education requirements and engage students in healthy levels of vigorous physical activity;
4. Strive to improve the quality of physical education curricula and increase the training of physical education teachers;
5. Follow the Arkansas Physical Education and Health Education Frameworks in grades K-12;
6. Not use food or beverages as rewards for academic, classroom, or sports performances;
7. Ensure that drinking water is available without charge to all students;
8. Establish class schedules, and bus routes that don't directly or indirectly restrict meal access;
9. Provide students with ample time to eat their meals in pleasant cafeteria and dining areas;
10. Establish no more than nine (9) school wide events which permit exceptions to the food and beverage limitations established by Rule. The schedule of the events shall be by school, approved by the principal, and shall be part of the annual school calendar;
11. Abide by the current allowable food and beverage portion standards;
12. Meet or exceed the more stringent of Arkansas' or the U.S. Department of Agriculture's Nutrition Standards for reimbursable meals and a la' carte foods served in the cafeteria;
13. Restrict access to vended foods, competitive foods, and foods of minimal nutritional value (FMNV) as required by law and Rule;
14. Conform new and/or renewed vending contracts to the content restrictions contained in the Rules and reduce district dependence on profits from the sale of FMNV.
15. Provide professional development to all district staff on the topics of nutrition and/or physical activity;

16. Utilize the School Health Index available from the Center for Disease Control (CDC) to assess how well the district is doing at implementing this wellness policy and at promoting a healthy environment for its students;

Advisory Committee

To enhance the Van Buren School District's efforts to improve the health of our students, a School Nutrition and Physical Activity Advisory Committee (SNPAAC) shall be formed. It shall be structured in a way that ensures age-appropriate recommendations are made which correlate to our district's grade configurations. The SNPAAC shall have the powers and responsibilities delegated to it by statute and Rule. The overarching goal of the committee shall be to promote student wellness by monitoring how well the district is doing at implementing this policy. The SNPAAC shall use modules 1, 2, 3, 4, and 8 of the CDC's School Health Index as a basis for assessing each school's progress toward meeting the requirements of this policy. The results of the annual assessment shall be included in each school's ACSIP, provided to each school's principal, and reported to the board.

1.31 – ADMINISTRATION OF SCHOOL ATTENDANCE ZONES

1.31

The following administrative regulations will facilitate any and all requests from parents or staff members requesting an exception for their children to attend a school outside of their assigned residential attendance zones.

1. Parents/Guardians must complete the District application form (Board Policy 1.31F1) requesting a change in Attendance Zone and submit same to the receiving school. Final approval must be granted by the Superintendent or his Designee. Applications will be accepted within the following timelines:
 - Applications for the Fall Term of the succeeding school year will be accepted between March 1 and April 15.
 - Temporary approval of these applications will be processed as soon as possible. Final approval will be made between the first and fifth day of the Fall Term when enrollment numbers are more accurate.
 - Applications received after April 15 for the succeeding school year will be considered between the first and fifth day of the Fall Term. Temporary approval may not be granted after April 15.
 - Applications will be considered at any time for the current school year.
 - If the Area Exception is filed due to anything other than an address change, the parent must meet with the present school's administrator for the application to be considered for the requested school.
 - If a request is made in the middle of a grading period the request will not be considered until the end of the grading period. The Superintendent or designee can waive the waiting period if the situation is warranted.
 - If a student has been approved for an Area Exception another application for a different school cannot be filed that same school year. Exception: If the parents have moved to a different address during the current school year. The Superintendent or designee may approve if deemed necessary.
 - If a student is approved to attend another school, they must attend that school for the remainder of the school year.
2. For a request in change of attendance zone to be approved, space must be available at the school site. The District will not approve a request that will place the District out of compliance with state regulations on classroom size. Once an elementary grade level reaches 90% capacity no more area exceptions will be accepted for that grade level. Once a middle school grade level reaches 95% capacity no more area exceptions will be accepted for that grade level.
3. Once an area exception has been approved, the student becomes an official student of that school building; As long as the district does not exceed the regulation and standards regarding classroom capacity. It is not necessary to complete an area exception on an annual basis.
4. The student will remain enrolled in that school unless they return to their zoned school and as long as classroom size standards are met.

5. Once a student leaves the school that the area exception was granted, they will have to reapply to attend the school again.
6. A present or future sibling of a student who continues enrollment as an area exception in a building may apply as an area exception if the school has the capacity to accept without adding teachers, staff or classrooms that exceed the regulations and standards established by law. If denied, they will be given priority to enroll at the building as soon as allowable.
7. The Van Buren School District is not obligated to provide transportation to any student who chooses to change attendance zones.
8. The District will not approve a change in attendance zone if the request would adversely affect the racial or socioeconomic balance within the school.
9. Students who are granted a change in attendance zone due to behavior or discipline problems will be placed in the new setting with the understanding that placement in the Alternative School will follow if problems persist.
10. Children of staff members will be allowed to attend the school that is the home base of the staff member.
11. Any and all appeals will be submitted to the Superintendent for final disposition.

4.1.2 — SCHOOL CHOICE POLICY

4.1.2

The superintendent shall cause public announcements to be made over the broadcast media in either the print media or on the Internet at such times and in such a manner as to inform parents or guardians of students in adjoining districts of the availability of the program, the application deadline, and the requirements and procedure for nonresident students to participate in the program.

Applications will be considered in the order that they are received.

A student's application will be accepted if the following conditions are met:

1. The application is received or postmarked no later than May 1 preceding the fall semester the applicant would begin school in the Van Buren School District;
2. The addition of the applicant does not require the Van Buren School District to add teachers, staff, or classrooms or in any way to exceed the requirements and standards established by existing law;
3. Acceptance of the application does not cause the Van Buren School District to be unable to properly service its resident pupils or would endanger the certifications of the Van Buren School District;
4. If the applicant is currently under expulsion from another district, then the applicant may be rejected by the Van Buren School District after a hearing before the School Board.

The superintendent shall notify the parent or guardian and the applicant's resident district, in writing, of the decision to accept or reject the application by July 1st.

Students admitted under this policy shall be entitled to continued enrollment until they graduate or are no longer eligible for enrollment in the District's schools.

The Van Buren School District shall not be responsible for the transportation of students admitted under this policy. Transportation is the responsibility of the applicant's parents or guardians. However, the Van Buren School District may, in its discretion, enter into a written agreement with the applicant's resident district regarding transportation, provided that the costs of the transportation are borne by the applicant or the applicant's resident district.

The Van Buren School District shall accept all credits toward graduation of an applicant that were awarded by another district and shall award a diploma if the applicant meets the Van Buren School District's graduation requirements.

Any student admitted to the Van Buren School District under the provisions of this policy who chooses to return to his/her resident district during the school year voids the transfer and must reapply for school choice admission if desiring to return to the Van Buren School District.

The superintendent shall report to the Arkansas Division of Elementary & Secondary Education on an annual basis the race, gender, and other pertinent information needed to properly monitor compliance with the provisions of this section.

4.1.2.1-POLICY FOR ACCEPTANCE AND REJECTION OF SCHOOL CHOICE NONRESIDENT STUDENTS

4.1.2.1

If a nonresident student seeks to attend school in Van Buren School District, the student's parent shall submit an application to the Van Buren School District Administration Office on the Nonresident Student Transfer Form available in the district office, postmarked no later than May 1 of the year in which the student seeks to begin the fall semester. The Van Buren School District will respond in writing no later than July 1 to notify the student's parent(s) or guardian(s) of whether the application has been accepted or denied.

A student's application may be denied by the Van Buren School District for any of the following reasons, as established by the Van Buren School District's Board of Directors (see attached Board Resolution form):

- Lack of capacity in a program, class, grade level, or school building, defined as 90% or more of the maximum authorized student population in a program, class, grade level, or school building; or
- A conflict between the provisions of a district's desegregation plan or court order and the provisions of the Public School Choice Act of 2015 (Act 560 of 2015); or
- The Van Buren School District has reached the maximum number of student transfers that may occur in a school year, which is capped at 3%.

A student's application may not be denied based on the student applicant's athletic or extracurricular abilities, academic achievement, English proficiency level, gender, race, ethnicity, religion, national origin, or disability. An application may not be denied on the basis of previous disciplinary proceedings, except that an expulsion from another district may be considered.

Priority will be given to any applicant who has a sibling or stepsibling who resides in the same household and is already enrolled in the Van Buren School District by choice.

The Van Buren School District is not required to accept any application that would cause it to add teachers, staff, or classrooms, or in any way exceed the requirements and standards established by law.

A student may transfer by choice to one nonresident school per year under the Public School Choice Act of 2015. A student who has transferred to our School District may return to his or her resident district at any time, but may only return to our School District by re-application and re-acceptance through the School Choice transfer process, or as otherwise allowed by law. No student is allowed more than one school choice transfer per school year.

A present or future sibling of a student who continues enrollment in the school district under the Public School Choice Act of 2015 and applies for a school choice transfer may enroll in the Van Buren School District if the Van Buren School District has the capacity to accept the sibling without adding teachers, staff, or classrooms or exceeding the regulations and standards established by law.

Students who request a transfer to our School District under Ark. Code Ann. §6-15-430 (academic distress), §6-18-227 (Opportunity School Choice Act), or §6-18-812 (facilities distress) will not count against the 3% cap of our School District.

4.1.4 – STUDENT TRANSFER – STUDENT ASSIGNMENT TO CLASS

4.1.4

Children entering Van Buren schools from accredited private or public school shall be assigned to grades according to the records of achievement from their previous schools.

Students entering the Van Buren schools from a school that is not accredited by the Arkansas Division of Elementary & Secondary Education, a Department of Education from another state, the North Central Association, or the Arkansas Non-Public School Accrediting Association, Inc., will be evaluated as follows:

Grades 1-8 – School authorities will use all available information in making the initial grade placement decision, including an appropriate placement exam. Age appropriateness will be a consideration in this decision. During the first semester of the student’s enrollment in Van Buren schools, the principal may subsequently change the placement depending on demonstrated performance by the child.

Grades 9-12 -- Students in grades 9-12 attempting to transfer credits from a non-accredited public or private school or from approved home schooling experiences will be required to take appropriate exams in the academic areas for which credit is desired.

The exams will be determined by school authorities. The percent of material mastered on the test will determine the credit. For example:

PERCENT CREDIT

90-100 Full

80-90 Full

70-80 Full

60-70 Full

59 or less 0

Students have the legal right to receive instruction through home schooling. However, the local school district has the responsibility of determining whether or not high school graduation credit is to be given should a student desire to receive public school credit toward graduation. The following procedures have been established:

- A. Students will be given a general achievement test to determine if the student is eligible to be considered for grade level placement. The district will provide an appropriate achievement test for use by the schools.
- B. If a student is eligible as demonstrated by grade level testing to earn credit for specific classes in grades 9-12, specific tests will be given to the student in each of the four core subject areas, English, math, social studies, and science, in which the student requests the credit. (For example: if the student requests a credit in Algebra I, then the student will be given a test that covers the objectives found in a year-long algebra class, etc.) Sixty percent (60%) achievement will be required for passing the test for credit. No grade letter will be issued, only “CR” for “credit earned”.
- C. Any student desiring to re-enter school claiming to have been in home schooling must have proof that application for home schooling has been approved. Copies of home schooling applications are kept on file in the superintendent’s office if the student does not have a copy of the application available.

- a. Upon entering, the student will fill out a form stating what courses he/she has taken in home schooling.
- b. The district will continue to require any student who desired to be a senior to be enrolled for six classes. Thus, if a home school student enrolls as a senior, the student will be required to take six classes regardless of how many credits the student has at the time of enrollment. The student will also be required to be enrolled two consecutive semesters to be considered a senior.
- c. Should a student not achieve at grade level on a general achievement test, grade placement will be determined by the principal after review of standardized test data.

NOTE: Any student of high school age would not be placed below the seventh grade.

The Board of Education reserves the right, after a hearing before the Board, not to allow any person who has been expelled from another district to enroll as a student until the time of the person's expulsion has expired.

Any student(s) who resides in the district, but has not attended the Van Buren School District for at least one (1) full academic year for eligibility for the Succeed Scholarship Program, will not be granted a waiver.

4.1.5 – STUDENTS EXPELLED IN A FORMER DISTRICT (ACT 574 of 1995) 4.1.5

It shall be the policy of the Van Buren School District that when a student otherwise eligible for enrollment is currently under an order of expulsion from the last school district he or she attended, a hearing before the School Board shall be held before that student may be enrolled. This hearing may be closed at the request of the student's parent, pursuant to Ark. Code Ann. 6-18-507. *See also* 28 U.S.C. §1232g.

Prior to the hearing, the Superintendent shall obtain a full report from the former district concerning the expulsion. 4.1.6--PLACEMENT OF MULTIPLE BIRTH SIBLINGS: PK--GRADE SIX (PK – 6)

4.1.6

Parents of multiple birth siblings in prekindergarten through grade six (pk-6), who are assigned to the same grade level and school, may request in writing, no later than the fourteenth day before the first day of school, that the school place the siblings in the same classroom or in separate classrooms. The school shall provide the placement requested by the parent except in the following cases where the school shall determine the appropriate placement:

- One parent's request differs from another parent's request;
- Thirty (30) instructional days have lapsed since the date the placement was made at the parent's request and after consulting with the teacher of each classroom in which the students are placed, the school determines that the classroom placement is detrimental to the educational achievement of one (1) or more of the siblings, disruptive to the classroom learning environment, or disruptive to the school's educational or disciplinary action;
- The request would require the school district to add an additional class;
- Or placement affects a right or obligation of the school or school district regarding student placement decisions of the school district under The Children with Disabilities Act of 1973, §6-41-201 et seq., The Individuals with Disabilities Education Act, 20 U.S.C. Section 1400 et seq. (as it exist on the effective date of this section), or written school district disciplinary policies.

I. Philosophy and Intent

- A. The Van Buren School District supports the philosophy that the instructional program is the vital part of a formal public education. We further believe that it is necessary to require that students attend school a maximum number of days for instructional purposes during each school year. Parents are strongly discouraged from taking students out of school for any reason other than family emergencies.
- B. Students are required to maintain a level of attendance which enables them to meet their responsibilities as learners.
- C. Students and their parents/guardians hold the main responsibility for school attendance and for following the attendance policy. The Board asks for the cooperation of both students and parents/guardians in these matters so that the student can receive the best education possible. A copy of the Van Buren School District's student attendance policy shall be provided to the students' parents, guardians, or loco parentis at the beginning of the school year or upon enrollment, whichever event first occurs.

II. Compulsory Attendance Law

- A. This attendance policy for all students uses the Arkansas Compulsory Attendance Law as a model and prescription, but is not limited to the law's minimum requirements.
- B. Under such penalty for noncompliance as shall be set by law every parent, guardian, or other person residing within the state of Arkansas having custody or charge of any child age five (5), as required by law, through seventeen (17) years shall enroll and send the child to a public, private, or parochial school or provide a home school for the child as described in 6-15-501 et seq. unless the child qualifies for an exception as stated in 6-18-201 et seq.

III. Student Drop Out (Act 876 of 1991)

- A. (b)(1) Each public, private, or parochial school shall notify the Department of Finance and Administration whenever a student fourteen (14) years of age or older is no longer in school.
- B. (2)(A) Upon receipt of such notification, the Department of Finance and Administration shall notify the licensee by certified mail, return receipt requested, that his motor vehicle operator's license shall be suspended unless a hearing is requested *in writing* within thirty (30) days from the date of notice.

IV. Notification to Prosecuting Attorney

- A. School officials will take the following action when a student's absences become excessive:
1. Notify the prosecuting attorney according to Act 876 of 1991 which states in part: "Whenever a student exceeds the number of excessive absences as provided for in the district's student attendance policy and the school district notifies the prosecuting or city attorney, the student's parents, guardians, or parents in loco parentis, shall be subject to a civil penalty in such an amount as a court of competent jurisdiction presiding in the presence of a school representative of the school district may prescribe, but not to exceed five hundred dollars (\$500) plus costs of court and any reasonable fees assessed by the court..." NOTE: Also, upon notification by the school district that a student is no longer attending school, the Department of Finance and Administration may suspend a student's learner's permit or driver's license.
 2. Notify the student and parents that the student has violated this attendance policy by accumulating an excessive number of absences. Accumulating an excessive number of absences will be a basis for denial of credit, promotion, or graduation.

V. Absences

Excused

When a student is absent due to emergencies such as illness, death in the family and other extenuating circumstances, the parent or guardian of the student should contact the student's principal or designee and relate the facts causing the emergency. Parents may contact the school by writing a note, in person, or by other means deemed appropriate by the school principal. Make-up work will be allowed for these absences and must be accomplished within a reasonable length of time as determined by individual teachers. All absences not described as excused are unexcused. A written statement presented for an absence having occurred more than five (5) school days prior to its presentation will **not** be accepted. Students may have six (6) parent permission notes per semester. Any absence over six (6) days without a doctor's note will be unexcused.

Unexcused

Unexcused absences are all failures to attend school other than those specified above. Make-up work for truancies will be left up to the discretion of the building principal. Students who are suspended from school may make up any classwork missed during the time they were suspended. For students who have been expelled the District shall establish programs, measures, or alternative means and methods to continue student engagement and access to education during a student's period of expulsion. The District's program shall include offering an expelled student an opportunity for enrollment in digital learning courses or other alternative educational courses that result in the receipt of academic credit that is at least equal to credit the expelled student may have received from the District if the student had not been expelled.

River Valley Virtual Academy

Absences for students enrolled in River Valley Virtual Academy courses shall be determined by daily student login. If a student fails to login, they will be counted absent. A student shall not be counted absent if all required assignments are completed on time as scheduled in the online platform.

Any of the penalties above when applied to a **STUDENT WITH DISABILITIES** will be imposed after consideration of the student's handicapping condition to determine if the improper action was a result of the handicap. When suspension of a handicapped student is necessary, the student's **INDIVIDUAL EDUCATION PLAN (IEP) COMMITTEE** will be convened as soon as possible to determine a suitable education alternative.

A copy of the above discipline policies will be made available on the district website. A form to be signed by the parents and the student acknowledging review of the rules will be sent along with the rules and should be returned to the school immediately.

If the form acknowledging review of the discipline policies has not been signed and returned to the school within one week, a second form will be sent to the parents.

After two weeks, an attempt will be made by the teacher and/or the principal to contact the parents through the mail or by telephone requesting the return of the completed form.

When the completed form is returned, it shall be placed in the student's file. Documentation of the efforts of the teacher and/or the principal to contact the parents and obtain the acknowledgment or receipt of the discipline policies will be placed in the file of the student if the receipt is not obtained.

4.3.3 – CHEMICAL SCREEN POLICY

4.3.3

MISSION STATEMENT

The Van Buren School District recognizes that drug abuse is a significant health problem for students, detrimentally affecting overall health, behavior, learning ability, reflexes, and the total development of each individual. The Van Buren Board of Education is determined to help students by providing another option for them to say “No”. Drug abuse includes, but is not limited to, the use of illegal drugs, alcohol, and the misuse of legal drugs and medications.

DEFINITIONS

Drug

Any substance considered illegal by Arkansas Statutes or which is controlled by the Food & Drug Administration unless prescribed by a licensed physician.

Activity Programs

Any Activity that meets the guidelines of the Arkansas Activities Association, activities sponsored by the school district, and driving a vehicle to school.

Parent Request

Students included upon parental request.

School Year

From the first day of classes in the fall, unless the activity begins prior to the first day of classes, in which event, from the first day of practice through the last day of classes in the spring.

POLICY STATEMENT

Van Buren School District (“the district”) is conducting a mandatory drug-testing program for students. Its purpose is threefold: (1) to provide for the health and safety of students in all Activity Programs grades 9-12; (2) to undermine the effects of peer pressure by providing a legitimate reason for students to refuse to use illegal or prescription drugs; and (3) to encourage students who use drugs to participate in drug treatment programs.

PROCEDURES FOR STUDENTS

Consent: Each student wishing to participate in any activity program and the student’s custodial parent or guardian shall consent in writing to drug testing pursuant to the District’s drug testing program. Written consent shall be in the form attached to this policy as FORM A. No student shall be allowed to participate in any activity program absent such consent. Students not involved in activities may be allowed to voluntarily participate in the testing pool with a consent form signed by the parent.

Student Selection: At the option of the district, all students in activity programs may be drug tested at the beginning of the school year. In addition, random testing will be conducted during the school year. Selection for random testing will be by lottery drawing from a “pool” of all students participating in activity programs in the district at the time of the drawing. A single test can be required by a principal from a student for reasonable suspicion. The superintendent shall take all reasonable steps to assure the integrity, confidentiality and random nature of the selection process including, but not necessarily limited to, assuring that the names of all participating students are in the pool, assuring that the person drawing names has no way of knowingly choosing or failing to

choose particular students for the testing, assuring that the identity of students drawn for testing is not known to those involved in the selection process and assuring direct observation of the process by the least intrusive means possible while assuring brevity and privacy.

SAMPLE COLLECTION

Samples will be collected at a mutually convenient time on the same day the student is selected for testing or if the student is absent on that day, on the day of the student's return to school. If a student is unable to produce a sample at any particular time, the student will be allowed to return later that same day to provide the sample. All students providing samples will be given the option of doing so alone in an individual stall with the door closed. A student who refuses to provide a sample will not be allowed to participate in any activity program until a sample is provided.

TESTING AGENCY

The district will choose a qualified agency for the purpose of processing sample results and maintaining privacy with respect to test results and related matters.

PRESCRIPTION MEDICATION

Students who are taking prescription medication may provide a copy of the prescription or a doctor's verification, which will be considered in determining whether a "positive" test has been satisfactorily explained. That documentation will be forwarded to the testing lab with instructions for the lab to consider the student's use of such medication to assure the accuracy of the result. Students who refuse to provide verification and test positive will be subject to the actions specified below for "positive tests".

SCOPE OF TESTS

The drug screen tests for one or more illegal or prescription drugs. The superintendent or his designee shall decide from week to week which illegal or prescription drugs shall be screened, but in no event shall that determination be made after selection of students for testing. Student samples will not be screened for the presence of any substances other than an illegal or prescription drug or for the existence of any physical condition other than drug intoxication. As a quality control measure, the school reserves the right to send any urine sample that appears unusual in color and/or consistency to a laboratory for testing and confirmation or non-confirmation.

LIMITED ACCESS TO RESULTS

The results will be reported only to the superintendent or to such person as the superintendent may designate in the event the superintendent is absent.

PROCEDURES IN THE EVENT OF A POSITIVE RESULT

Whenever a student's test result indicates a positive result, the following will occur: If the sample tests positive, a custodial parent or legal guardian will be notified and a meeting will be scheduled with the Superintendent or his designee, the student, the custodial parent or legal guardian, and the student's principal and head coach or sponsor.

FIRST POSITIVE RESULT

For a positive result, the student will be placed on probation and not be allowed to participate in competitions, presentations, activity programs and driving a vehicle to school in the Van Buren Schools for a period of twenty-one days. The student may be recommended for counseling, if any charge is incurred, it will be the responsibility of the parents. On day twenty-two the student will again be eligible for competitions, presentations, activity programs,

and driving a vehicle to school, relating to Van Buren Schools and will again be eligible to be tested if they are randomly selected.

SECOND POSITIVE RESULT

For the second positive result in the same year or any two consecutive calendar years, the student will be suspended from participating in activity programs and driving a vehicle to school for the remainder of the school year. If this positive test is in the spring semester, the student will not be able to participate during the following fall semester.

THIRD POSITIVE RESULT

For the third positive result, the student will be suspended from participating in activity programs and driving a vehicle to school for the remainder of his enrollment with the school (may be appealed to the board).

FAILURE OF COMPLIANCE

Disregarding any part of first, second, or third positive result may result with the following:

- Driving privileges revoked for determined period of time
- Vehicle being towed from school property
- Suspension from school

NON-PUNITIVE NATURE OF POLICY

No student shall be penalized academically for testing positive for illegal or prescription drugs. The results of chemical screenings pursuant to this policy will not be documented in any student's academic records. Information regarding the results of chemical screenings will not be disclosed to criminal or juvenile authorities absent legal compulsion by valid and binding subpoena or other legal process, which the district shall not solicit. In the event of service of any such subpoena or legal process, the student and the student's custodial parent or legal guardian will be notified as soon as possible by the district.

OTHER DISCIPLINARY MEASURES

The District by accepting this policy is not precluded from utilizing other disciplinary measures set forth in the Student Discipline Policy and this policy does not preclude the District from taking disciplinary procedure and resulting action when founded upon reasonable belief and suspicion that a student has participated in drug related activities.

4.3.4 -- APPEARANCE CODE

4.3.4

The school board recognizes that among those rights retained by the people under our constitutional form of government is the freedom to govern one's personal appearance. When, however, dress and grooming disrupt the learning process for the individual student, other students, or the learning climate of the school, it becomes a matter subject to disciplinary action.

Student dress, grooming, and appearance are subject to the following guidelines:

- a. Dress and grooming should be clean in keeping with health and sanitary practices.
- b. Students may not wear clothing or hairstyles that can be hazardous to them in their education activities such as shop, lab work, physical education, art or on-the-job training.
- c. Dress and grooming should not disrupt the educational process. Students, while on the grounds of a public school during the regular school day or at school-sponsored activities and events, may not wear clothing that exposes underwear, buttocks, (sagging), or the breast of a female. Exceptions may apply to a costume or uniform in a school-sponsored activity or event.
- d. A student shall not wear or use emblems, insignias, badges, or other symbols which cause disruption or interferences with the operation of the school. Individual schools may be more specific in listing those dress and grooming practices that would disrupt the educational process or interfere with the operation of the school.

MINIMUM PENALTY: Verbal reprimand and correction of violation by the student.

MAXIMUM PENALTY: Ten day suspension, conference with parents to determine agreement on solution. Continued violation could result in recommendation of expulsion.

4.3.5 -- STUDENT SEXUAL HARASSMENT

4.3.5

The Van Buren School District is committed to providing an academic environment that treats all students with respect and dignity. Student achievement is best attained in an atmosphere of equal educational opportunity that is free of discrimination. Sexual harassment is a form of discrimination that undermines the integrity of the educational environment and will not be tolerated.

The District believes the best policy to create an educational environment free from sexual harassment is prevention; therefore, the District shall provide informational materials and training to students, parents/legal guardians/other responsible adults, and employees on sexual harassment. The informational materials and training on sexual harassment shall be age appropriate and, when necessary, provided in a language other than English or in an accessible format. The informational materials and training shall include, but are not limited to:

- the nature of sexual harassment;
- The District's written procedures governing the formal complaint grievance process;
- The process for submitting a formal complaint of sexual harassment;
- That the district does not tolerate sexual harassment;
- That students can report inappropriate behavior of a sexual nature without fear of adverse consequences;
- The supports that are available to individuals suffering sexual harassment; and
- The potential discipline for perpetrating sexual harassment.

Definitions

"Complainant" means an individual who is alleged to be the victim of conduct that could constitute sexual harassment.

"Education program or activity" includes locations, events, or circumstances where the District exercised substantial control over both the respondent and the context in which the sexual harassment occurs.

"Formal complaint" means a document filed by a complainant or signed by the Title IX Coordinator alleging sexual harassment against a respondent and requesting an investigation of the allegation of sexual harassment.

"Respondent" means an individual who has been reported to be the perpetrator of conduct that could constitute sexual harassment.

"Sexual harassment" means conduct on the basis of sex that satisfies one or more of the following:

1. A District employee:
 - a. Conditions the provision of an aid, benefit, or service of the District on an individual's participation in sexual conduct; or
 - b. Uses the rejection of sexual conduct as the basis for academic decisions affecting that individual;
2. The conduct is:
 - a. Unwelcome; and
 - b. Determined by a reasonable person to be so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the District's education program or activity; or
 - c. Constitutes:
 - d. Sexual assault;
 - e. Dating violence
 - f. Domestic violence; or
 - g. Stalking.

“Supportive measures” means individualized services that are offered to the complainant or the respondent designed to restore or preserve equal access to the District’s education program or activity without unreasonably burdening the other party. The supportive measures must be non-disciplinary and non-punitive in nature; offered before or after the filing of a formal complaint or where no formal complaint has been filed; and offered to either party as appropriate, as reasonably available, and without fee or charge. Examples of supportive measures include, but are not limited to: measures designed to protect the safety of all parties or the District’s educational environment, or deter sexual harassment; counseling; extensions of deadlines or other course-related adjustments; modifications of work or class schedules; campus escort services; mutual restrictions on contact between the parties; changes in work or class locations; leaves of absence; and increased security and monitoring of certain areas of the campus.

Within the educational environment, sexual harassment is prohibited between any of the following: students; employees and students; and non-employees and students.

Actionable sexual harassment is generally established when an individual is exposed to a pattern of objectionable behaviors or when a single, serious act is committed. What is, or is not, sexual harassment will depend upon all of the surrounding circumstances and may occur regardless of the sex(es) of the individuals involved. Depending upon such circumstances, examples of sexual harassment include, but are not limited to:

- Making sexual propositions or pressuring for sexual activities;
- Unwelcome touching;
- Writing graffiti of a sexual nature;
- Displaying or distributing sexually explicit drawings, pictures, or written materials;
- Performing sexual gestures or touching oneself sexually in front of others;
- Telling sexual or crude jokes;
- Spreading rumors related to a person’s alleged sexual activities;
- Discussions of sexual experiences;
- Rating other students as to sexual activity or performance;
- Circulating or showing e-mails or Web sites of a sexual nature;
- Intimidation by words, actions, insults, or name calling; and
- Teasing or name-calling related to sexual characteristics or the belief or perception that an individual is not conforming to expected gender roles or conduct or is homosexual, regardless of whether or not the student self-identifies as homosexual or transgender.

Students who believe they have been subjected to sexual harassment, or the parent/legal guardian/other responsible adult of a student who believes their student has been subjected to sexual harassment, are encouraged to bring their concerns to **any** District staff member, including a counselor, teacher, Title IX coordinator, or administrator. If the District staff member who received a report of alleged sexual harassment is not the Title IX Coordinator, then the District staff person shall inform the Title IX Coordinator of the alleged sexual harassment. As soon as reasonably possible after receiving a report of alleged sexual harassment from another District staff member or after receiving a report directly through any means, the Title IX Coordinator shall contact the complainant to:

- Discuss the availability of supportive measures;
- Consider the complainant’s wishes with respect to supportive measures;
- Inform the complainant of the availability of supportive measures with or without the filing of a formal complaint; and
- explain to the complainant the process for filing a formal complaint.

Supportive Measures

The District shall offer supportive measures to both the complainant and respondent that are designed to restore or preserve equal access to the District's education program or activity without unreasonably burdening the other party before or after the filing of a formal complaint or where no formal complaint has been filed. The District shall provide the individualized supportive measures to the complainant unless declined in writing by the complainant and shall provide individualized supportive measures that are non-disciplinary and non-punitive to the respondent. A complainant who initially declined the District's offer of supportive measures may request supportive measures at a later time and the District shall provide individualized supportive measures based on the circumstances when the subsequent request is received.

Formal Complaint

A formal complaint may be filed with the Title IX Coordinator in person, by mail, or by email. Upon receipt of a formal complaint, a District shall simultaneously provide the following written notice to the parties who are known:

- Notice of the District's grievance process and a copy of the procedures governing the grievance process;
- Notice of the allegations of sexual harassment including sufficient details known at the time and with sufficient time to prepare a response before any initial interview. Sufficient details include:
 - ✚ The identities of the parties involved in the incident, if known;
 - ✚ The conduct allegedly constituting sexual harassment; and
 - ✚ The date and location of the alleged incident, if known;
- A statement that the respondent is presumed not responsible for the alleged conduct and that a determination regarding responsibility is made at the conclusion of the grievance process;
- That the parties may have an advisor of their choice, who may be, but is not required to be, an attorney;
- That the parties may inspect and review evidence relevant to the complaint of sexual harassment; and
- That the District's code of conduct prohibits knowingly making false statements or knowingly submitting false information during the grievance process.

If, in the course of an investigation, the District decides to investigate allegations about the complainant or respondent that are not included in the previous notice, the District shall simultaneously provide notice of the additional allegations to the parties whose identities are known.

The District may consolidate formal complaints of allegations of sexual harassment where the allegations of sexual harassment arise out of the same facts or circumstances and the formal complaints are against more than one respondent; or by more than one complainant against one or more respondents; or by one party against the other party. When the District has consolidated formal complaints so that the grievance process involves more than one complainant or more than one respondent, references to the singular "party", "complainant", or "respondent" include the plural, as applicable.

When investigating a formal complaint and throughout the grievance process, a District shall:

- Ensure that the burden of proof and the burden of gathering evidence sufficient to reach a determination regarding responsibility rest on the District and not on the parties;
- Not require, allow, rely upon, or otherwise use questions or evidence that constitute, or seek disclosure of, information protected under a legally recognized privilege or access, consider, disclose, or otherwise use a party's records that are made or maintained by a physician, psychiatrist, psychologist, or other recognized professional or paraprofessional acting in the professional's or paraprofessional's capacity, or assisting in that capacity, and which are made and maintained in connection with the provision of treatment to the party unless the District obtains the parent, legal guardian, or other responsible adult of that party's voluntary, written consent or that party's voluntary, written consent if the party is over the age of eighteen (18) to do so for the grievance process;

- Provide an equal opportunity for the parties to present witnesses, including fact and expert witnesses, and other inculpatory and exculpatory evidence;
- Not restrict the ability of either party to discuss the allegations under investigation or to gather and present relevant evidence;
- Provide the parties with the same opportunities to have others present during any grievance proceeding, including the opportunity to be accompanied to any related meeting or proceeding by the advisor of their choice, who may be, but is not required to be, an attorney, and not limit the choice or presence of advisor for either the complainant or respondent in any meeting or grievance proceeding;
- Provide, to a party whose participation is invited or expected, written notice of the date, time, location, participants, and purpose of all hearings, investigative interviews, or other meetings, with sufficient time for the party to prepare to participate;
- Provide both parties an equal opportunity to inspect and review any evidence obtained as part of the investigation that is directly related to the allegations raised in the formal complaint so that each party can meaningfully respond to the evidence prior to the conclusion of the investigation; this includes evidence:
 - Whether obtained from a party or other source;
 - The District does not intend to rely upon in reaching a determination regarding responsibility; and
 - That is either Inculpatory or exculpatory; and
- Create an investigative report that fairly summarizes relevant evidence.

At least ten (10) days prior to completion of the investigative report, the District shall send to each party and the party’s advisor, if any, the evidence subject to inspection and review in an electronic format or a hard copy. The parties shall have at least ten (10) days to submit a written response to the evidence. The investigator will consider the written responses prior to completion of the investigative report. All evidence subject to inspection and review shall be available for the parties’ inspection and review at any meeting to give each party equal opportunity to refer to such evidence during the meeting.

After the investigative report is sent to the parties, the decision-maker shall:

- Provide each party the opportunity to submit written, relevant questions that a party wants asked of any party or witness;
- Provide each party with the answers;
- Allow for additional, limited follow-up questions from each party; and
- Provide an explanation to the party proposing the questions any decision to exclude a question as not relevant. Specifically, questions and evidence about the complainant’s sexual predisposition or prior sexual behavior are not relevant, unless such questions and evidence about the complainant’s prior sexual behavior are offered to prove that someone other than the respondent committed the conduct alleged by the complainant, or if the questions and evidence concern specific incidents of the complainant’s prior sexual behavior with respect to the respondent and are offered to prove consent.

Following the completion of the investigation period, the decision-maker, who cannot be the same person as the Title IX Coordinator or the investigator, shall issue a written determination regarding responsibility. The written determination shall include—

1. Identification of the allegations potentially constituting sexual harassment;
2. A description of the procedural steps taken from the receipt of the formal complaint through the determination, including:
 - a. Any notifications to the parties;

 - e. Hearings held;
3. Findings of fact supporting the determination;

4. Conclusions regarding the application of the District's code of conduct to the facts;
5. A statement of, and rationale for, the result as to each allegation, including:
 - a. A determination regarding responsibility;
 - b. Any disciplinary sanctions imposed on the respondent; and
 - c. Whether remedies designed to restore or preserve equal access to the District's education program or activity will be provided by the District to the complainant; and
6. The procedures and permissible bases for the complainant and respondent to appeal.

The written determination shall be provided to the parties simultaneously. The determination regarding responsibility shall become final on the earlier of:

- If an appeal is not filed, the day after the period for an appeal to be filed expires; or
- If an appeal is filed, the date the written determination of the result of the appeal is provided to the parties.

The District shall investigate the allegations in a formal complaint. If the conduct alleged in the formal complaint would not constitute sexual harassment as defined in this policy even if proved; did not occur in the District's education program or activity; or did not occur against a person in the United States, then the District shall dismiss the complaint as not meeting the definition of sexual harassment under this policy. A dismissal for these reasons does not preclude action under another provision of the District's code of conduct.

The District may dismiss the formal complaint or any allegations therein, if at any time during the grievance process:

- The complainant notifies the Title IX Coordinator in writing that the complainant would like to withdraw the formal complaint or any allegations therein;
- The respondent is no longer enrolled at the District; or
- Specific circumstances prevent the District from gathering evidence sufficient to reach a determination as to the formal complaint or allegations therein.

Upon the dismissal of a formal complaint for any reason, the District shall promptly send written notice of the dismissal and reason(s) for the dismissal simultaneously to the parties.

The District may hire an individual or individuals to conduct the investigation or to act as the determination-maker when necessary.

Appeals

Either party may appeal a determination regarding responsibility or from a dismissal of a formal complaint or any allegations therein, on the following bases:

- a. The existence of a procedural irregularity that affected the outcome of the matter;
- b. Discovery of new evidence that was not reasonably available at the time the determination regarding responsibility or dismissal was made, that could affect the outcome of the matter;
- c. The Title IX Coordinator, investigator, or decision-maker had a conflict of interest or bias for or against complainants or respondents generally or the individual complainant or respondent that affected the outcome of the matter; or
- d. An appeal of the disciplinary sanctions from the initial determination.

For all appeals, the District shall:

1. Notify the other party in writing when an appeal is filed;
2. Simultaneously Provide all parties a written copy of the District's procedures governing the appeal process;
3. Implement appeal procedures equally for both parties;

4. Ensure that the decision-maker for the appeal is not the same person as the decision-maker that reached the original determination regarding responsibility or dismissal, the investigator, or the Title IX Coordinator;
5. Provide all parties a reasonable, equal opportunity to submit a written statement in support of, or challenging, the outcome;
6. Issue a written decision describing the result of the appeal and the rationale for the result; and
7. Provide the written decision simultaneously to both parties.

Confidentiality

Reports of sexual harassment, both informal reports and formal complaints, will be treated in a confidential manner to the extent possible. Limited disclosure may be provided to:

- individuals who are responsible for handling the District's investigation and determination of responsibility to the extent necessary to complete the District's grievance process;
- Submit a report to the child maltreatment hotline;
- Submit a report to the Professional Licensure Standards Board for reports alleging sexual harassment by an employee towards a student; or
- The extent necessary to provide either party due process during the grievance process.

Except as listed above, the District shall keep confidential the identity of:

- ✚ Any individual who has made a report or complaint of sex discrimination;
- ✚ Any individual who has made a report or filed a formal complaint of sexual harassment;
- ✚ Any complainant;
- ✚ Any individual who has been reported to be the perpetrator of sex discrimination;
- ✚ Any respondent; and
- ✚ Any witness.

Any supportive measures provided to the complainant or respondent shall be kept confidential to the extent that maintaining such confidentiality does not impair the ability of the District to provide the supportive measures.

Emergency removal

The District may remove a respondent from the District's education program or activity on an emergency basis only after the completion of an individualized safety and risk analysis that determines that an immediate threat to the physical health or safety of any student or other individual arising from the allegations of sexual harassment justifies removal. A removed student will be provided with notice and an opportunity to challenge the removal decision immediately following the removal.

Retaliation Prohibited

Students, or the parents/legal guardians/ other responsible adult of a student, who submit a report or file a formal complaint of sexual harassment,; testified; assisted; or participate or refused to participate in any manner in an investigation, proceeding, or hearing on sexual harassment shall not be subjected to retaliation or reprisal in any form, including threats; intimidation; coercion; discrimination; or charges for code of conduct violations that do not involve sex discrimination or sexual harassment, arise out of the same facts or circumstances as a report or formal complaint of sex discrimination, and are made for the purpose of interfering with any right or privilege under this policy. The District shall take steps to prevent retaliation and shall take immediate action if any form of retaliation occurs regardless of whether the retaliatory acts are by District officials, students, or third parties.

Disciplinary Sanctions

It shall be a violation of this policy for any student to be subjected to, or to subject another person to, sexual harassment. Following the completion of the District's grievance process, any student who is found

by the evidence to more likely than not have engaged in sexual harassment will be subject to disciplinary action up to, and including, expulsion. No disciplinary sanction or other action that is not a supportive measure may be taken against a respondent until the conclusion of the grievance process.

Students who knowingly fabricate allegations of sexual harassment or purposely provide inaccurate facts shall be subject to disciplinary action up to and including expulsion. A determination that the allegations do not rise to the level of sexual harassment alone is not sufficient to conclude that any party made a false allegation or materially false statement in bad faith.

Records

The District shall maintain the following records for a minimum of seven (7) years:

- Each sexual harassment investigation including:
 - Any determination regarding responsibility;
 - any disciplinary sanctions imposed on the respondent;
 - Any remedies provided to the complainant designed to restore or preserve equal access to the District's education program or activity;
 - Any appeal and the result therefrom;
 - All materials used to train Title IX Coordinators, investigators, and decision-makers;
 - Any actions, including any supportive measures, taken in response to a report or formal complaint of sexual harassment, which must include:
 - The basis for the District's conclusion that its response was not deliberately indifferent; and
 - Document:
 - If supportive measures were provided to the complainant, the supportive measures taken designed to restore or preserve equal access to the District's education program or activity; or
 - If no supportive measures were provided to a complainant, document the reasons why such a response was not clearly unreasonable in light of the known circumstances.

4.3.9 – PROCESS FOR RESOLVING PARENTAL CONCERNS AND/OR OTHER COMPLAINTS

4.3.9

Complaints Related to Personnel, Curriculum, Student Discipline, or Other Management or Operational Issues

It is the intent of the Board of Directors of the Van Buren School District to be responsive to the community it serves and to continuously improve the quality of the educational program offered in its schools. The Board and the District welcome constructive criticism when it is offered with the intent of improving the quality of the system's educational program or the delivery of District services.

The Board formulates, sets goals, and adopts policies to achieve the District's vision and elects a Superintendent and other staff to implement policy. All administrative functions of the District are delegated to the Superintendent who is responsible for the effective administration and supervision of the District. The Superintendent delegates many of these responsibilities to staff employed by the district.

Resolution of Parental/Patron Concerns

Individuals with complaints concerning personnel, curriculum, student discipline (including specific discipline policies), or other day-to-day operational or management issues should address those complaints according to the following sequence:

- Level One: Teacher or other staff member against whom the complaint is directed
- Level Two: Principal (or appropriate supervisor)
- Level Three: Superintendent (or designee)

School staff shall work with concerned parents and patrons to define the problem, develop possible solutions, and implement the solution to the extent possible.

Except where statutorily allowed or required, student discipline and personnel matters may not be discussed in Board meetings. Individuals with complaints regarding such matters are required to follow the sequence outlined above.

Unless authorized by the Board as a whole for a specific purpose, no individual Board member has any authority when acting alone. District constituents are reminded that the Board serves as a finder of fact, not unlike a jury, in matters such as student expulsions and personnel discipline. For this reason, the Board may not be involved or informed prior to a Board hearing on particular disciplinary matters.

Complaints Related to Use of Federal Funds

Complaints related to district use or administration of federal funds generated through specific programs identified by the Arkansas Department of Education and authorized in the Elementary and Secondary Education Act may be taken directly from a patron or by referral from the Arkansas Department of Education (ADE). If taken directly from a patron, the complaint may be submitted by either a signed statement or by a certified, recorded deposition or statement in which the complainant is identified.

Complaints related to use of federal funds shall be addressed in the following manner:

1. The complaint shall be referred to the Director of Federal Programs, who shall assemble a team of not less than two people to investigate the complaint.

2. Throughout the investigation, sufficient notes and records will be taken and maintained to substantiate the findings of the investigation.
3. The team will interview the complainant and others as necessary to enable the team to make a determination of the validity of the complaint. The team may consult with individuals with knowledge or expertise in the matter which is the subject of the complaint to include legal counsel.
4. The investigation of complaints referred by the ADE shall be completed within 30 work days of receipt of the complaint unless a longer time period has been approved by the ADE.
5. The investigation of complaints made directly to the district shall be completed within 40 work days unless there are extenuating circumstances; in such case, a preliminary report shall be made within 40 work days of receipt of the complaint, which shall include an explanation of the unusual circumstances requiring additional time to complete the investigation.
6. The report of the conclusions of the investigation shall be given to the complainant. It shall contain a summary of the allegations of the complaint, a summary of the investigative actions taken by the team, a summary of the findings concerning each alleged violation or implied violation, a statement of corrective actions needed to resolve the issues involved in each allegation and finding of complaint.

4.4--PERSONAL AND PROPERTY SEARCHES

4.4

It is the responsibility of school officials to protect the health, safety, and welfare of all students enrolled in the District in order to promote an environment conducive to student learning. The Superintendent, principals, and their designees have the right to inspect and search school property and equipment. They may also search students and their personal property in which the student has a reasonable expectation of privacy, when there is reasonable and individualized suspicion to believe such student or property contains illegal items or other items in violation of Board policy or dangerous to the school community. School authorities may seize evidence found in the search and disciplinary action may be taken. Evidence found which appears to be in violation of the law shall be reported to the appropriate authority.

School property shall include, but not be limited to, lockers, desks, and parking lots, as well as personal effects left there by students. When possible, prior notice will be given and the student will be allowed to be present along with an adult witness; however, searches may be done at any time with or without notice or the student's consent. A personal search must not be excessively intrusive in light of the age and sex of the student and the nature of the infraction.

The Superintendent, principals, and their designees may request the assistance of law enforcement officials to help conduct searches. Such searches may include the use of specially trained dogs.

A teacher may dismiss for disciplinary reasons any student from class. The teacher shall, when feasible, accompany the student to the office of the principal or designee and shall, as soon as practical, but no later than the end of the school day in which the student is dismissed, file with the principal a written statement of the reason or reasons for the student's dismissal from class. The principal or designee shall determine whether to reinstate the student in class, reassign him/her, or take other disciplinary action.

Each principal or designee is authorized to suspend students from school for a period of up to 10 days for disciplinary reasons. Unless administrators imposing suspensions have personally witnessed the infractions, they will conduct such investigation into the matter as they deem necessary, including an interview with the subject student.

The administrator conducting the informal hearing or advising students of their misconduct and providing students the opportunity to present their version of what happened shall write a brief summary of the procedure to be kept in the school files.

Any conduct that tends to be disruptive of the education program will be grounds for suspension. Out-of-School Suspension shall not be used to discipline a student for skipping class, excessive absences, or other forms of truancy. Disruptive conduct that could result in penalties ranging from a verbal reprimand to ten days suspension includes but is not limited to:

- leaving school grounds at any time without permission,
- fighting,
- destruction of school property (students will also pay for damage),
- violation of driving or parking regulations,
- defiant or hostile acts,
- insubordination,
- act involving moral turpitude, and disrespect for authority

Out-of-school suspension shall not be used to discipline a student in kindergarten through fifth grade unless the student's behavior:

- a. Poses a physical risk to himself or herself or to others;
- b. Causes a serious disruption that cannot be addressed through other means; or
- c. Is the act of bringing a firearm on school campus

Before imposing suspensions administrators will advise students orally or in writing of the nature of their misconduct and, if they deny the misconduct, an explanation of the evidence the school authorities have, at which time students shall have the opportunity to present their version of what happened as a means of defense or mitigation.

The administrator suspending a student shall immediately notify the parent, legal guardian, person having lawful control of a student or person standing in loco parentis, of the suspension. Notification shall be by one of the following means, listed in order of priority:

- A primary call number;
 - The contact may be by voice, voicemail, or text message.
- An email address;
- A regular first-class letter to the last known mailing address

The notification will include the reasons for the suspension, its duration, and the manner in which the student may be readmitted to school, and if a review may be provided. The notification, if by telephone, will be made the day the suspension is imposed or, if by mail, the letter will be mailed on the day the suspension is imposed to the parent at the address reflected on the records of the school district.

It is the responsibility of the student's parents, legal guardians, person having lawful control of the student or person standing in loco parentis to provide current contact information to the district.

The district shall keep a log of contacts attempted and made to the parent, legal guardian, person having lawful control of the student, or person standing in loco parentis.

During the period of their suspension, students serving in Out-of-School Suspension are not permitted on campus, except to attend a student/parent/administrator conference and shall not attend or participate in any school-sponsored activities during the imposed suspension.

All students returning to school after expiration of a suspension must be accompanied by a parent or a guardian, unless contact has been made with the principal giving satisfactory reasons why the parent or guardian cannot or need not appear.

4.10 – EXPULSION

4.10

The Board of Education may expel a student for a period longer than ten (10) school days for violation of the District's written discipline policies. The Superintendent may make a recommendation of expulsion to the Board of Education for student conduct deemed to be of such gravity that suspension would be inappropriate, or where the student's continued attendance at school would disrupt the orderly learning environment or would pose an unreasonable danger to the welfare of other students or staff.

The Superintendent or his/her designee shall give written notice to the parents, legal guardians, persons having lawful control of the student, or persons standing in loco parentis (mailed to the address reflected on the District's records) that he/she will recommend to the Board of Education that the student be expelled for the specified length of time and state the reasons for the recommendation to expel. The notice shall give the date, hour, and place where the Board of Education will consider and dispose of the recommendation.

The hearing shall be conducted not later than ten (10) school days following the date of the notice, except that representatives of the Board and student may agree in writing to a date not conforming to this limitation.

The President of the Board, Hearing Officer, or other designated Board member shall preside at the hearing. The student may choose to be represented by legal counsel. The hearing shall be conducted in open session of the Board unless the parent, legal guardians, persons having lawful control of the student, persons standing in loco parentis, or student if age 18 or older, requests that the hearing be conducted in executive session. Any action taken by the Board shall be in open session.

During the hearing, the Superintendent or his/her designee, or representative will present evidence including witnesses that gave rise to the recommendation of expulsion. The student or his/her representative may then present evidence including statements from persons with personal knowledge of the events or circumstances relevant to the charges against the student. Formal cross-examination will not be permitted; however, any member of the Board may question anyone making a statement. The student may be questioned. The presiding officer shall decide questions concerning the appropriateness or relevance of any questions asked during the hearing.

The Superintendent shall recommend the expulsion of any student for a period of not less than one (1) year for possession of any firearm or other weapon prohibited on school campus by law. The Superintendent shall, however, have the discretion to modify the expulsion recommendation for such student on a case-by-case basis. Parents, legal guardian, persons having lawful control of a student, or persons standing in loco parentis of a student enrolling from another school after the expiration of an expulsion period for a weapons policy violation shall be given a copy of the current laws regarding the possibility of parental responsibility for allowing a child to possess a weapon on school property. The parents, legal guardians, persons having lawful control of the student, or persons standing in loco parentis shall sign a statement acknowledging that they have read and understand said laws prior to the student being enrolled in school.

The District shall establish programs, measures, or alternative means and methods to continue student engagement and access to education during a student's period of expulsion. The District's program shall include offering an expelled student an opportunity for enrollment in digital learning courses or other alternative educational courses that result in the receipt of academic credit that is at least equal to credit the expelled student may have received from the District if the student had not been expelled.

4.12—HEALTH SERVICES

4.12

Any child who becomes ill or injured at school shall be cared for by the nurse, or other school personnel. The parents, or a person designated on the student's Emergency Call Card, will be notified to pick up the student if they are found to have an above normal temperature, and/or signs of illness.

In order to minimize the spread of illnesses, students are expected to be free of fever without the use of fever reducing medications for twenty-four hours before returning to school. In the event of severe illness or injury requiring immediate medical attention, every attempt will be made to contact a parent before transporting to a medical facility.

4.13 – PRIVACY OF STUDENTS’ RECORDS/DIRECTORY INFORMATION 4.13

Except when a court order regarding a student has been presented to the district to the contrary, all students’ education records are available for inspection and copying by the parent of his/her student who is under the age of eighteen (18). At the age of eighteen (18), the right to inspect and copy a student’s records transfers to the student. A student’s parent or the student, if over the age of 18, requesting to review the student’s education records will be allowed to do so within no more than forty-five (45) days of the request. The district forwards education records, including disciplinary records, to schools that have requested them and in which the student seeks or intends to enroll, or is already enrolled so long as the disclosure is for purposes related to the student's enrollment or transfer.

The district shall receive written permission before releasing education records to any agency or individual not authorized by law to receive and/or view the education records without prior parental permission. The District shall maintain a record of requests by such agencies or individuals for access to, and each disclosure of, personally identifiable information (PII) from the education records of each student. Disclosure of education records is authorized by law to school officials with legitimate educational interests. A personal record kept by a school staff member is **not** considered an education record if it meets the following tests.

- it is in the sole possession of the individual who made it;
- it is used only as a personal memory aid; and
- information contained in it has never been revealed or made available to any other person, except the maker’s temporary substitute.

For the purposes of this policy a school official is a person employed by the school as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the school board; a person or company with whom the school has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks.

For the purposes of this policy a school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility, contracted duty, or duty of elected office.

In addition to releasing PII to school officials without permission, the District may disclose PII from the education records of students in foster care placement to the student’s caseworker or to the caseworker’s representative without getting prior consent of the parent (or the student if the student is over eighteen (18)). For the District to release the student’s PII without getting permission:

- The student must be in foster care;
- The individual to whom the PII will be released must have legal access to the student’s case plan; and
- The Arkansas Department of Human Services, or a sub-agency of the Department, must be legally responsible for the care and protection of the student.

The District discloses PII from an education record to appropriate parties, including parents, in connection with an emergency if knowledge of the information is necessary to protect the health or safety of the student or other individuals. The superintendent or designee shall determine who will have access to and the responsibility for disclosing information in emergency situations.

When deciding whether to release PII in a health or safety emergency, the District may take into account the totality of the circumstances pertaining to a threat to the health or safety of a student or other individuals. If the District determines that there is an articulable and significant threat to the health or safety of a student or other individuals, it may disclose information from education records to any person whose knowledge of the information is necessary to protect the health or safety of the student or other individuals.

For purposes of this policy, the Van Buren School District does not distinguish between a custodial and noncustodial parent, or a non-parent such as a person acting in loco parentis or a foster parent with respect to gaining access to a student's records. Unless a court order restricting such access has been presented to the district to the contrary, the fact of a person's status as parent or guardian, alone, enables that parent or guardian to review and copy his child's records.

If there exists a court order which directs that a parent not have access to a student or his/her records, the parent, guardian, person acting in loco parentis, or an agent of the Department of Human Services must present a file-marked copy of such order to the building principal and the superintendent. The school will make good-faith efforts to act in accordance with such court order, but the failure to do so does not impose legal liability upon the school. The actual responsibility for enforcement of such court orders rests with the parents or guardians, their attorneys and the court which issued the order.

A parent or guardian does not have the right to remove any material from a student's records, but such parent or guardian may challenge the accuracy of a record. The right to challenge the accuracy of a record does not include the right to dispute a grade, disciplinary rulings, disability placements, or other such determinations, which must be done only through the appropriate teacher and/or administrator, the decision of whom is final. A challenge to the accuracy of material contained in a student's file must be initiated with the building principal, with an appeal available to the Superintendent or his/her designee. The challenge shall clearly identify the part of the student's record the parent wants changed and specify why he/she believes it is inaccurate or misleading. If the school determines not to amend the record as requested, the school will notify the requesting parent or student of the decision and inform them of their right to a hearing regarding the request for amending the record. The parent or eligible student will be provided information regarding the hearing procedure when notified of the right to a hearing.

Unless the parent or guardian of a student (or student, if above the age of eighteen (18)) objects, "directory information" about a student may be made available to, military recruiters, post-secondary educational institutions, , organizations with the purpose of acknowledging educational achievement as well as school publications such as annual yearbooks and graduation announcements. "Directory information" includes, but is not limited to, a student's name, address, electronic mail address, photograph, dates of attendance, his/her placement on the honor roll (or the receipt of other types of honors), as well as his/her participation in school clubs and extracurricular activities, among others. If the student participates in inherently public activities (for example, basketball, football, or other interscholastic activities), the publication of such information will be beyond the control of the District. "Directory information" also includes a student identification (ID) number, user ID, or other unique personal identifier used by a student for purposes of accessing or communicating in electronic systems and a student ID number or other unique personal identifier that is displayed on a student's ID badge, provided the ID cannot be used to gain access to education records except when used in conjunction with one or more factors that authenticate the user's identity, such as a personal identification number (PIN), password or other factor known or possessed only by the authorized user.

A student's name and photograph will only be displayed on the district or school's web page(s) after receiving the written permission from the student's parent or student if over the age of 18.

The form for objecting to making directory information available is located in the back of the student handbook and must be completed and signed by the parent or age-eligible student and filed with the building principal's office no later than ten (10) school days after the beginning of each school year or the date the student is enrolled for school. Failure to file an objection by that time is considered a specific grant of permission. The district is required to continue to honor any signed-opt out form for any student no longer in attendance at the district.

The right to opt out of the disclosure of directory information under Family Educational Rights and Privacy Act (FERPA) does not prevent the District from disclosing or requiring a student to disclose the student's name, identifier, or institutional email address in a class in which the student is enrolled.

Parents and students over the age of 18 who believe the district has failed to comply with the requirements for the lawful release of student records may file a complaint with the U.S. Department of Education (DOE) at

**4.13F – OBJECTION TO PUBLICATION OF DIRECTORY INFORMATION 4.13F
(Not to be filed if the parent/student has no objection)**

I, the undersigned, being a parent of a student, or a student eighteen (18) years of age or older, hereby note my objection to the disclosure or publication by the Van Buren School District of directory information, as defined in Policy No. 4.13 (Privacy of Students’ Records), concerning the student named below. The district is required to continue to honor any signed opt-out form for any student no longer in attendance at the district.

I understand that the participation by the below-named student in any interscholastic activity, including athletics and school clubs, may make the publication of some directory information unavoidable, and the publication of such information in other forms, such as telephone directories, church directories, etc., is not within the control of the District.

I understand that this form must be filed with the office of the appropriate building principal within ten (10) school days from the beginning of the current school year or the date the student is enrolled for school in order for the District to be bound by this objection. Failure to file this form within that time is a specific grant of permission to publish such information.

I object and wish to deny the disclosure or publication of directory information as follows:

Deny disclosure to military recruiters _____

Deny disclosure to Institutions of postsecondary education _____

Deny disclosure to local organizations _____

Deny disclosure to all public and school sources _____

Selecting this option will prohibit the release of directory information to the three categories listed above along with all other public sources (such as newspapers), **AND** result in the student’s directory information **not** being included in the school’s yearbook and other school publications.

Deny disclosure to all public sources _____

Selecting this option will prohibit the release of directory information to the first three categories listed above along with all other public sources (such as newspapers) but permit the student’s directory information **to be included** in the school’s yearbook and other school publications.

4.14 -- COMMUNICABLE DISEASES

4.14

Students with communicable diseases or with human host parasites that are transmittable in a school environment shall demonstrate respect for other students by not attending school while they are capable of transmitting their condition to others. Students whom the school nurse determines are unwell or unfit for school attendance or who are believed to have a communicable disease or condition will be required to be picked up by their parent or guardian. Specific examples include, but are not limited to: chicken pox, measles, scabies, conjunctivitis (Pink Eye), impetigo/MRSA (Methicillin-resistant *Staphylococcus aureus*), streptococcal and staphylococcal infections, ringworm, mononucleosis, Hepatitis A, B, or C, mumps, vomiting, diarrhea, and fever (100.4 F when taken orally). A student who has been sent home by the school nurse will be subsequently readmitted, at the discretion of the school nurse, when the student is no longer a transmission risk. In some instances, a letter from a health care provider may be required prior to the student being readmitted to the school.

To help control the possible spread of communicable diseases, school personnel shall follow the District's exposure control plan when dealing with any bloodborne, foodborne, and airborne pathogens exposures. Standard precautions shall be followed relating to the handling, disposal, and cleanup of blood and other potentially infectious materials such as all body fluids, secretions and excretions (except sweat).

A student enrolled in the District who has an immunization exemption may be removed from school at the discretion of the Arkansas Department of Health during an outbreak of the disease for which the student is not vaccinated. The student may not return to the school until the outbreak has been resolved and the student's return to school is approved by the Arkansas Department of Health.

The parents or legal guardians of students found to have live human host parasites that are transmittable in a school environment will be asked to pick their child up. The parents or legal guardians will be given information concerning the eradication and control of human host parasites. A student may be readmitted after the school nurse or designee has determined the student no longer has live human host parasites that are transmittable in a school environment.

Each school may conduct screenings of students for human host parasites that are transmittable in a school environment as needed. The screenings shall be conducted in a manner that respects the privacy and confidentiality of each student.

4.15 -- STUDENT RECORDS

4.15

The school may, without the consent of either students or parents, release student records to school officials who have a proper educational purpose in examining the information.

No other person should have access to student records except when proper written consent to the release of such records has been obtained. The consent must be given by the students' parents or guardian except when students reach the age of 18 years, their consent and not that of their parents must be obtained to release the information. Students who meet these requirements must consent to parental access to their records.

Student records may be released under compulsion of law and data for outside research purposes may be released in such form that no individual student is identifiable.

Parents shall have the right to contest or correct the material viewed by them as incorrect, misleading or harmful.

4.15.1 -- STUDENT RECORDS - "CHILD ABUSE"

4.15.1

Reports made and/or received by counselors or other personnel of the Van Buren School District under the provisions of A.C.A. 12-12-500 through A.C.A 12-12-515 are confidential and must be treated with great care.

State law allows Department of Human Services employees, local law enforcement, or agents of the Crimes Against Children Division of the Department of Arkansas State Police to interview students without a court order for the purpose of investigating suspected child abuse. The principal or the principal's designee shall not attempt to contact the student's parent, legal guardian, person having lawful control of the student by court order, or person acting in loco parentis on student enrollment forms if presented documentation by the investigator that notification is prohibited because a parent, guardian, custodian, or person standing in loco parentis is named as an alleged offender of the suspected child maltreatment.

In the Van Buren School District, counselors making or receiving such reports shall be responsible for seeing that their confidentiality is protected by keeping them in a special file in the counselor's office.

The permanent record of the student(s) who are subjects in these reports may be marked to indicate that special information about them exists in a special file, but under no circumstance shall this information be made a part of their permanent file.

4.18—STUDENT VISITORS

4.18

The Van Buren School District strongly believes that the purpose of school is for learning. Social visitors, generally, disrupt the classroom and interfere with learning that should be taking place. Therefore, visiting with students at school is strongly discouraged, unless approved by the principal and scheduled in advance. This includes visits made by former students, friends, and/or relatives of teachers or students. Any visitation to the classroom shall be allowed only with the permission of the school principal and all visitors must first register at the office.

Cross References: For adult visits see Policy 4.19—CONTACT WITH STUDENTS WHILE AT SCHOOL and Policy 6.11—VISITORS TO THE SCHOOLS

4.19—CONTACT WITH STUDENTS WHILE AT SCHOOL

4.19

CONTACT BY PARENTS

Parents wishing to speak to their children during the school day shall register first with the office.

CONTACT BY NON-CUSTODIAL PARENTS

If there is any question concerning the legal custody of the student, the custodial parent shall present documentation to the principal or his/her designee establishing the parent's custody of the student. It shall be the responsibility of the custodial parent to make any court ordered "no contact" or other restrictions regarding the non-custodial parent known to the principal by presenting a copy of a file-marked court order. Without such a court order on file, the school will release the child to either of his/her parents. Non-custodial parents who file with the principal a date-stamped copy of current court orders granting visitation may eat lunch, volunteer in their child's classroom, or otherwise have contact with their child during school hours and the prior approval of the school's principal. Such contact is subject to the limitations outlined in Policy 4.18, Policy 6.11, and any other policies that may apply.

Unless prior arrangements have been made with the school's principal, Arkansas law provides that the transfer of a child between his/her custodial parent and non-custodial parent, when both parents are present, shall not take place on the school's property on normal school days during normal hours of school operation.

CONTACT BY LAW ENFORCEMENT, SOCIAL SERVICES, OR BY COURT ORDER

State Law requires that Department of Human Services employees, local law enforcement, or agents of the Crimes Against Children Division of the Department of Arkansas State Police, may interview students without a court order for the purpose of investigating suspected child abuse. In instances where the interviewers deem it necessary, they may exercise a "72-hour hold" without first obtaining a court order. Other questioning of students by non-school personnel shall be granted only with a court order directing such questioning, with permission of the parents of a student (or the student if above eighteen [18] years of age), or in response to a subpoena or arrest warrant.

If the District makes a report to any law enforcement agency concerning student misconduct or if access to a student is granted to a law enforcement agency due to a court order, the principal or the principal's designee shall make a good faith effort to contact the student's parent, legal guardian, or other person having lawful control by court order, or person acting in loco parentis identified on student enrollment forms. The principal or the principal's designee shall not attempt to make such contact if presented documentation by the investigator that notification is prohibited because a parent, guardian, custodian, or person standing in loco parentis is named as an alleged offender of the suspected child maltreatment. This exception applies only to interview requests made by a law enforcement officer, an investigator of the Crimes Against Children Division of the Department of Arkansas State Police, or an investigator or employee of the Department of Human Services.

In instances other than those related to cases of suspected child abuse, principals must release a student to either a police officer who presents a subpoena for the student, or a warrant for arrest, or to an agent of state social services or an agent of a court with jurisdiction over a child with a court order signed by a judge. Upon release of the student, the principal or designee shall give the student's parent, legal guardian, or other person having lawful control by court order, or person acting in loco parentis notice that the student has been taken into custody by law enforcement personnel or a state's social services

agency. If the principal or designee is unable to reach the parent, he or she shall make a reasonable, good faith effort to get a message to the parent to call the principal or designee, and leave both a day and an after-hours telephone number.

4.22—WEAPONS AND DANGEROUS INSTRUMENTS

4.22

No student shall possess a weapon, display what appears to be a weapon, or threaten to use a weapon while in school, on or about school property, before or after school, in attendance at school or any school sponsored activity, on route to or from school or any school sponsored activity, off the school grounds at any school bus stop, or at any school sponsored activity or event. Military personnel, such as ROTC cadets, acting in the course of their official duties are exempted.

A weapon is defined as any firearm; knife; razor; ice pick; dirk; box cutter; nunchucks; pepper spray, mace, or other noxious spray; explosive; Taser or other instrument that uses electrical current to cause neuromuscular incapacitation; or any other instrument or substance capable of causing bodily harm. For the purposes of this policy, "firearm" means any device designed, made, or adapted to expel a projectile by the action of an explosive or any device readily convertible to that use.

Possession means having a weapon, as defined in this policy, on the student's body or in an area under his/her control. If a student discovers prior to any questioning or search by any school personnel that he/she has accidentally brought a weapon, other than a firearm, to school on his/her person, in a book bag/purse, or in his/her vehicle on school grounds, and the student informs the principal or a staff person immediately, the student will not be considered to be in possession of a weapon unless it is a firearm. The weapon shall be confiscated and held in the office until such time as the student's parent/legal guardian shall pick up the weapon from the school's office. Repeated offenses are unacceptable and shall be grounds for disciplinary action against the student as otherwise provided for in this policy.

Except as permitted in this policy, students found to be in possession on the school campus of a firearm shall be recommended for expulsion for a period of not less than one year. The superintendent shall have the discretion to modify such expulsion recommendation for a student on a case-by-case basis.

The mandatory expulsion requirement for possession of a firearm does not apply to a firearm brought to school for the purpose of participating in activities approved and authorized by the district that include the use of firearms. Such activities may include ROTC programs, hunting safety or military education, or before or after-school hunting or rifle clubs. Firearms brought to school for such purposes shall be brought to the school employee designated to receive such firearms. The designated employee shall store the firearms in a secure location until they are removed for use in the approved activity.

The district shall report any student who brings a firearm to school to the criminal justice system or juvenile delinquency system by notifying local law enforcement.

MINIMUM PENALTY: Verbal reprimand by school employee.

MAXIMUM PENALTY: Expulsion from school and filing of appropriate legal charges.

4.24—DRUGS AND ALCOHOL

4.24

An orderly and safe school environment that is conducive to promoting student achievement requires a student population free from the deleterious effects of alcohol and drugs. Their use is illegal, disruptive to the educational environment, and diminishes the capacity of students to learn and function properly in our schools.

Therefore, no student in the Van Buren School District shall possess, attempt to possess, consume, use, distribute, sell, buy, attempt to sell, attempt to buy, give to any person, or be under the influence of any substance as defined in this policy, or what the student represents or believes to be any substance as defined in this policy. It is also prohibited to be in possession of drug related paraphernalia. Paraphernalia is defined as any article used in any drug related activity. This policy applies to any student who: is on or about school property; is in attendance at school or any school sponsored activity; has left the school campus for any reason and returns to the campus; or is on route to or from school or any school sponsored activity.

Prohibited substances shall include, but are not limited to, alcohol, or any alcoholic beverage, inhalants or any ingestible matter that alter a student’s ability to act, think, or respond, LSD, or any other hallucinogen, marijuana, or any THC containing medications/oils, cocaine, heroin, or any other narcotic drug, PCP, amphetamines, steroids, “designer drugs,” look-alike drugs, or any controlled substance.

Definition

For the purposes of this policy, "electronic device" means anything that can be used to transmit or capture images, sound, or data.

The District makes electronic device(s) and/or electronic device Internet access available to students, to permit students to perform research and to allow students to learn how to use electronic device technology. Use of district electronic devices is for educational and/or instructional purposes only. Student use of electronic device(s) shall only be as directed or assigned by staff or teachers; students are advised that they enjoy no expectation of privacy in any aspect of their electronic device use, including email, and that monitoring of student electronic device use is continuous.

No student will be granted Internet access until and unless an Internet and electronic device -use agreement, signed by both the student and the parent or legal guardian (if the student is under the age of eighteen [18]) is on file. The current version of the Internet and Electronic Device use agreement is incorporated by reference into board policy and is considered part of the student handbook.

Internet Use and Safety

The District is dedicated to ensuring that students are capable of using the Internet in a safe and responsible manner. The District uses technology protection measures to aid in student safety and shall also educate students on appropriate online behavior and Internet use including, but not limited to:

- interacting with other individuals on social networking websites and in chat rooms;
- Cyberbullying awareness; and
- Cyberbullying response.

Misuse of Internet

The opportunity to use the District's technology to access the Internet is a privilege and not a right. Students who misuse electronic devices or Internet access in any way will face disciplinary action, as specified in the student handbook and/or Internet safety and electronic device use agreement. Misuse of the Internet includes:

- The disabling or bypassing of security procedures, compromising, attempting to compromise, or defeating the district's technology network security or Internet filtering software;
- The altering of data without authorization;
- Disclosing, using, or disseminating passwords, whether the passwords are the student's own or those of another student/faculty/community member, to other students;

Adopted by Board of Education 02/12/19

Prior to the administration of any medication, including any dietary supplement or other perceived health remedy not regulated by the US Food and Drug Administration, to any student under the age of eighteen (18), written parental consent is required. The consent form shall include authorization to administer the medication and relieve the Board and its employees of civil liability for damages or injuries resulting from the administration of medication to students in accordance with this policy. All signed medication consent forms are to be maintained by the school nurse.

Unless authorized to self-administer, or otherwise authorized by this policy, students are not allowed to carry any medications, including over-the-counter (OTC) medications or any dietary supplement or other perceived health remedy not regulated by the US Food and Drug Administration while at school. The parent or legal guardian shall bring the student's medication to the school nurse. The student may bring the medication if accompanied by a written authorization from the parent or legal guardian. When medications are brought to the school nurse, the nurse shall document, in the presence of the parent, the quantity of the medication(s). If the medications are brought by a student, the school nurse shall ask another school employee to verify, in the presence of the student, the quantity of the medication(s). Each person present shall sign a form verifying the quantity of the medication(s).

Medications, including those for self-administration, must be in the original container and be properly labeled with the student's name, the ordering provider's name, the name of the medication, the dosage, frequency, and instructions for the administration of the medication (including times). Additional information accompanying the medication shall state the purpose for the medication, its possible side effects, and any other pertinent instructions (such as special storage requirements) or warnings. Schedule II medications that are permitted by this policy to be brought to school shall be stored in a double locked cabinet.

Students with an individualized health plan (IHP) may be given OTC medications to the extent giving such medications are included in the student's IHP.

The district's supervising registered nurse is responsible for creating procedures for the administration of medications on and off campus.

The school shall not keep outdated medications or any medications past the end of the school year. Parents shall be notified ten (10) days in advance of the school's intention to dispose of any medication. Medications not picked up by the parents or legal guardians within the ten (10) day period shall be disposed of by the school nurse in accordance with current law and rules.

Schedule II Medications

The only Schedule II medications that shall be allowed to be brought to the school are methylphenidate (e.g. Ritalin or closely related medications as determined by the school nurse), dextroamphetamine (Dexedrine), and amphetamine sulfate (e.g. Adderall or closely related medications as determined by the school nurse).

For the student's safety, no student will be allowed to attend school if the student is currently taking any other Schedule II medication than permitted by this policy. Students who are taking Schedule II medications which are not allowed to be brought to school shall be eligible for homebound instruction if provided for in their IEP or 504 plans.

The district's supervising registered nurse shall be responsible for creating both on campus and off campus procedures for administering medications.

Self-Administration of Medication

Students who have written permission from their parent or guardian and a licensed health care practitioner on file with the District may:

- 1) Self-administer either a rescue inhaler or auto-injectable epinephrine;
- 2) Perform his/her own blood glucose checks;
- 3) Administer insulin through the insulin delivery system the student uses;
- 4) Treat the student's own hypoglycemia and hyperglycemia; or
- 5) Possess on his or her person:
 - a) A rescue inhaler or auto-injectable epinephrine; or
 - b) the necessary supplies and equipment to perform his/her own diabetes monitoring and treatment functions.

Students who have a current consent form on file shall be allowed to carry and self-administer such medication while:

- In school;
- At an on-site school sponsored activity;
- While traveling to or from school; or
- At an off-site school sponsored activity.

A student is prohibited from sharing, transferring, or in any way diverting his/her medications to any other person. The fact that a student with a completed consent form on file is allowed to carry a rescue inhaler, auto-injectable epinephrine, diabetes medication, or combination does not require him/her to have such on his/her person. The parent or guardian of a student who qualifies under this policy to self-carry a rescue inhaler, auto-injectable epinephrine, diabetes medication, or any combination on his/her person shall provide the school with the appropriate medication, which shall be immediately available to the student in an emergency.

Students may possess and use a topical sunscreen that is approved by the United States Food and Drug Administration for OTC use to avoid overexposure to the sun without written authorization from a parent, legal guardian, or healthcare professional while the student is on school property or at a school-related event or activity. The parent or guardian of a student may provide written documentation authorizing specifically named District employee(s), in addition to the school nurse, to assist a student in the application of sunscreen. The District employee(s) named in the parent or legal guardian's written authorization shall not be required to assist the student in the application of sunscreen.

Emergency Administration of Glucagon and Insulin

Students may be administered Glucagon, insulin, or both in emergency situations by the school nurse or, in the absence of the school nurse, a trained volunteer school employee designated as a care provider, provided the student has:

1. an IHP that provides for the administration of Glucagon, insulin, or both in emergency situations; and
2. a current, valid consent form on file from their parent or guardian.

When the nurse is unavailable, the trained volunteer school employee who is responsible for a student shall be released from other duties during:

- A. The time scheduled for a dose of insulin in the student's IHP; and
- B. Glucagon or non-scheduled insulin administration once other staff have relieved him/her from other duties until a parent, guardian, other responsible adult, or medical personnel has arrived.

A student shall have access to a private area to perform diabetes monitoring and treatment functions as outlined in the student's IHP.

Emergency Administration of Epinephrine

The school nurse or other school employees designated by the school nurse as a care provider who have been trained and certified by a licensed physician may administer an epinephrine auto-injector in emergency situations to students who have an IHP that provides for the administration of an epinephrine auto-injector in emergency situations.

The parent of a student who has an authorizing IHP, or the student if over the age of eighteen (18), shall annually complete and sign a written consent form provided by the student's school nurse authorizing the nurse or other school employee(s) certified to administer auto-injector epinephrine to administer auto-injector epinephrine to the student when the employee believes the student is having a life-threatening anaphylactic reaction.

Students with an order from a licensed health care provider to self-administer auto-injectable epinephrine and who have written permission from their parent or guardian shall provide the school nurse an epinephrine auto-injector. This epinephrine will be used in the event the school nurse, or other school employee certified to administer auto-injector epinephrine, in good faith professionally believes the student is having a life-threatening anaphylactic reaction and the student is either not self-carrying his/her epinephrine auto-injector or the nurse is unable to locate it.

The school nurse for each District school shall keep epinephrine auto-injectors on hand that are suitable for the students the school serves. The school nurse or other school employee designated by the school nurse as a care provider who has been trained and certified by a licensed physician may administer auto-injector epinephrine to those students who the school nurse, or other school employee certified to administer auto-injector epinephrine, in good faith professionally believes is having a life-threatening anaphylactic reaction.

Emergency Administration of Albuterol

The school nurse or other school employees designated by the school nurse as a care provider who have been trained and certified by a licensed physician, advanced practice registered nurse, or physician assistant may administer albuterol in emergency situations to students who have an IHP that provides for the administration of albuterol in emergency situations.

The parent of a student who has an authorizing IHP, or the student if over the age of eighteen (18), shall annually complete and sign a written consent form provided by the student's school nurse authorizing the nurse or other school employee(s) certified to administer albuterol to administer albuterol to the student when the employee believes the student is in perceived respiratory distress.

The school nurse for each District school shall keep albuterol on hand. The school nurse or other school employee designated by the school nurse as a care provider who has been trained and certified by a licensed physician, advanced practice registered nurse, or physician assistant may administer albuterol to those students who the school nurse, or other school employee certified to administer albuterol, in good faith professionally believes is in perceived respiratory distress.

Emergency Administration of Anti-opioid

The school nurse for each District school shall keep anti-opioid injectors on hand. The school nurse, other school employee, volunteer, or student may administer anti-opioid in accordance with the District's procedures to a student who the school nurse, or other observer, in good faith believes is having an opioid overdose.

Here is a helpful, but not all-inclusive, list of prohibited Schedule II medications: Opium, morphine, codeine, hydromorphone (Dilaudid), methadone, meperidine (Demerol), cocaine, oxycodone (Percodan), amobarbital, pentobarbital, sufentanil, etorphine hydrochloride, phenylactone, dronabinol, secobarbital, and fentanyl.

If a student has surgery or is in an accident resulting in the student needing to take Schedule II medication, a 504 plan can be developed to cover the duration of the student's recovery. The plan could include homebound instruction.

4.45-SMART CORE CURRICULUM AND GRADUATION REQUIREMENTS-4.45 FOR THE CLASS of 2017

All students are required to participate in the Smart Core curriculum unless their parents or guardians, or the students if they are 18 years of age or older, sign a Smart Core Waiver Form to not participate. While Smart Core is the default option, both a Smart Core Informed Consent Form and a Smart Core Waiver Form will be sent home with students prior to their enrolling in seventh grade, or when a 7-12 grade student enrolls in the district for the first time and there is not a signed form in the student's permanent record. Parents must sign one of the forms and return it to the school so it can be placed in the students' permanent records. This policy is to be included in student handbooks for grades 6-12 and both students and parents must sign an acknowledgement they have received the policy. Those students not participating in the Smart Core curriculum will be required to fulfill the Core curriculum or the requirements of their IEP (when applicable) to be eligible for graduation. Counseling by trained personnel shall be available to students and their parents or legal guardians prior to the time they are required to sign the consent forms.

While there are similarities between the two curriculums, following the Core curriculum may not qualify students for some scholarships and admission to certain colleges could be jeopardized. Students initially choosing the Core curriculum may subsequently change to the Smart Core curriculum providing they would be able to complete the required course of study by the end of their senior year. Students wishing to change their choice of curriculums must consult with their counselor to determine the feasibility of changing paths.

This policy, the Smart Core curriculum, and the courses necessary for graduation shall be reviewed by staff, students, and parents at least once every four years to determine if changes need to be made to better serve the needs of the district's students. The superintendent, or his/her designee, shall select the composition of the review panel.

Sufficient information relating to Smart Core and the district's graduation requirements shall be communicated to parents and students to ensure their informed understanding of each. This may be accomplished through any or all of the following means:

- Inclusion in the student handbook of the Smart Core curriculum and graduation requirements;
- Discussion of the Smart Core curriculum and graduation requirements at the school's annual public meeting, PTA meetings, or a meeting held specifically for the purpose of informing the public on this matter;
- Discussions held by the school's counselors with students and their parents; and/or
- Distribution of a newsletter(s) to parents or guardians of the district's students.

Administrators, or their designees, shall train newly hired employees, required to be licensed as a condition of their employment, regarding this policy. The district's annual professional development shall include the training required by this paragraph.

GRADUATION REQUIREMENTS

The number of units students must earn to be eligible for high school graduation is to be earned from the categories listed below. A minimum of 22 units is required for graduation for a student participating in either the Smart Core or Core curriculum. 4.48—VIDEO SURVEILLANCE AND OTHER STUDENT MONITORING 4.48

The Board of Directors has a responsibility to maintain discipline, protect the safety, security, and welfare of its students, staff, and visitors while at the same time safeguarding district facilities, vehicles, and equipment. As part of fulfilling this responsibility, the board authorizes the use of video/audio surveillance cameras, automatic identification technology, data compilation devices, and technology capable of tracking the physical location of district equipment, students, and/or personnel.

The placement of video/audio surveillance cameras shall be based on the presumption and belief that students, staff and visitors have no reasonable expectation of privacy anywhere on or near school property, facilities, vehicles, or equipment, with the exception of places such as rest rooms or dressing areas where an expectation of bodily privacy is reasonable and customary.

Signs shall be posted on campus buildings and in district vehicles to notify students, staff, and visitors that video cameras may be in use. Parents and students shall also be notified through the student handbook that cameras may be in use in school buildings, on school grounds and in school vehicles. Students will be held responsible for any violations of school discipline rules caught by the cameras and other technologies authorized in this policy.

The district shall retain copies of video recordings until they are erased which may be accomplished by either deletion or copying over with a new recording. Other than video recordings being retained under the provisions of this policy's following paragraph, the district's video recordings may be erased any time after they were created.

Videos, automatic identification, or data compilations containing evidence of a violation of student conduct rules and/or state or federal law shall be retained until the issue of the misconduct is no longer subject to review or appeal as determined by board policy or student handbook; any release or viewing of such records shall be in accordance with current law.

Students who vandalize, damage, disable, or render inoperable (temporarily or permanently) surveillance cameras and equipment, automatic identification, or data compilation devices shall be subject to appropriate disciplinary action and referral to appropriate law enforcement authorities.

4.51 – FOOD SERVICE PREPAYMENT

4.51

The Van Buren School District expects timely payment for food items purchased in the school cafeteria. Meals may be paid for daily or in advance at the school cafeteria with cash or a check. Online payments may be made with a credit or debit card at www2.mypaymentsplus.com, 24 hours a day. The link for this site is on the school district's website, www.vbsd.us.

The federal reporting requirements do not allow the VBSD Child Nutrition Department to extend credit to children or their parents. Parents are required to pay for each child's meals as they are provided.

Students/Parents who fail to pay for purchased food items will be notified by mail; accounts left unpaid will be turned over to a collection agency and/or the Crawford County Prosecuting Attorney.

Remaining funds or negative balances for a student will be carried over to the next school year.

There will be no charging of a la carte items in any school cafeteria.

The federal Fair and Accurate Credit Transaction Act of 2007 requires creditors to implement Identity Theft Protection. Efforts will be made by district officials to reclaim the cost of any food items made available to elementary and secondary students who mistakenly forget to bring lunch money to school.

Nothing in this policy is designed to prohibit school officials from feeding a student who has forgotten his daily lunch money. Parents are accountable for taking care of each of their children's nutrition needs, even when the children are at school. Parents may provide food from home or local restaurants *for their children ONLY*. Parents may not bring food to school for any other children.

Parents are encouraged to apply for free or reduced meals for their children if they qualify based on their income. Applications are available at each school and online and are accepted for processing at any time during the school year.

The Board believes acceleration is an effective and research-based intervention for the academic growth of students who are ready for an advanced or faster-paced curriculum. It can allow a student to move through the traditional educational setting more rapidly, based on assessed readiness, capability and motivation. At the same time, the Board understands that acceleration is not a replacement for gifted education services or programs.

Generally, acceleration can occur through one of two broad categories: content based and grade based. Grade based acceleration shortens the number of years a student would otherwise spend in K-12 education, while content based acceleration occurs within the normal K-12 time span. Either form of acceleration can be triggered by either a parent/guardian, student, or by the referral of school personnel. In either case, the process of determining the appropriateness of the request shall be under the direction of the District Gifted and Talented Program Coordinator who shall convene the individuals necessary to make an informed decision which shall include the student's parents or guardians.

The optimal time for referrals is in the spring which gives adequate time for working through the determination process and for preparing those concerned for a smooth transition to the acceleration beginning in the following school-year. A written referral should be made to the building principal by May 1 in order for acceleration to be considered for the following school year.

The following format will be used to govern the referral and determination process.

Acceleration and Pre-Referral Qualifications

Prior to an acceleration referral, a student should demonstrate achievement and ability in the following areas.

- High academic performance in core content areas
- High intellectual ability on assessments administered through the gifted program

Acceleration Referral

A student may be referred for acceleration by a parent, administrator, counselor, teacher or student. A written referral stating the reason for the referral should be made to the building principal by May 1 in order for acceleration to be considered for the following school year.

Acceleration Placement Committee

Once a referral for acceleration is made to the building principal, he/she will contact the District Gifted and Talented Program Coordinator and a committee will be formed. The committee will include the following school personnel.

- District GT Program Coordinator
- Building principal
- GT specialist
- Counselor
- Teachers

Factors Considered by the Acceleration Committee

In reaching a decision, the committee members shall consider the following:

- Teacher recommendation
- Academic ability
- Learning aptitude
- Educational achievement
- Interpersonal and emotional maturity
- Development factors
- Parental/guardian support

Acceleration Procedures

1. Upon referral, student data will be collected and reviewed by the District GT Coordinator. The District reserves the right to conduct further testing if warranted. Parent will sign a permission to test form prior to the administration of testing by the gifted and talented program.
2. Parent and teachers may be asked to complete a rating scale for characteristics of giftedness.
3. The GT specialist, counselor, and/or District GT Coordinator may consult with the student and current classroom teacher.
4. Committee members will review records, grades, assessments, and written comments from parents and teachers. They will discuss appropriate placement for the student. Parents of the student may request to address the committee members prior to the acceleration meeting.
5. A decision will be made by the committee after the review of the data collected.
6. The placement decision may be appealed to the District's GT Coordinator (see procedures below).
7. If the decision is made to accelerate a student, an evaluation of the implementation will be conducted each quarter during the first year and will continue subsequent years if warranted.

Appeal Process

The parents/guardians of any student whose request for acceleration has been denied may appeal the decision, in writing, to the District's GT Coordinator. The District's GT Coordinator and the Acceleration Placement Committee will again thoroughly review the case study that was completed on the student. Upon completion of the review, the Committee will either request additional new testing be conducted to help the Committee make its determination or it will uphold the initial decision. The Committee's decision may not be further appealed.

Definitions

“In process” means the student has received at least one dose of the required immunizations and is waiting the minimum time interval to receive the additional dose(s).

“Serologic testing” refers to a medical procedure used to determine an individual’s immunity to Hepatitis B, Measles, Mumps, Rubella and Varicella.

General Requirements

Unless otherwise provided by law or this policy, no student shall be admitted to attend classes in the District who has not been age appropriately immunized against:

- Poliomyelitis;
- Diphtheria;
- Tetanus;
- Pertussis;
- Red (rubeola) measles;
- Rubella;
- Mumps;
- Hepatitis A;
- Hepatitis B;
- Meningococcal disease;
- Varicella (chickenpox); and
- Any other immunization required by the Arkansas Department of Health (ADH).

The District administration has the responsibility to evaluate the immunization status of District students. The District shall maintain a list of all students who are not fully age appropriately immunized or who have an exemption provided by ADH to the immunization requirements based on medical, religious, or philosophical grounds. Students who are not fully age appropriately immunized when seeking admittance shall be referred to a medical authority for consultation.

The only types of proof of immunization the District will accept are immunization records provided by a:

- A. Licensed physician;
- B. Health department;
- C. Military service; or
- D. Official record from another educational institution in Arkansas.

The proof of immunization must include the vaccine type and dates of vaccine administration. Documents stating “up-to-date”, “complete”, “adequate”, and the like will not be accepted as proof of immunization. No self or parental history of varicella disease will be accepted. Valid proof of immunization and of immunity based on serological testing shall be entered into the student’s record.

In order to continue attending classes in the District, the student must have submitted:

- 1) Proof of immunization showing the student to be fully age appropriately vaccinated;
- 2) Written documentation by a public health nurse or private physician of proof the student is in process of being age appropriately immunized, which includes a schedule of the student’s next immunization;
- 3) A copy of a letter from ADH indicating immunity based on serologic testing; and/or
- 4) A copy of the letter from ADH exempting the student from the immunization requirements for the current school year, or a copy of the application for an exemption for the current school year if the exemption letter has not yet arrived.

Students whose immunization records or serology results are lost or unavailable are required to receive all age appropriate vaccinations or submit number 4 above.

Temporary Admittance

While students who are not fully age appropriately immunized or have not yet submitted an immunization waiver may be enrolled to attend school, such students shall be allowed to attend school on a temporary basis only. Students admitted on a temporary basis may be admitted for a maximum of thirty (30) days (or until October 1st of the current school year for the tetanus, diphtheria, pertussis, and meningococcal vaccinations required at ages eleven (11) and sixteen (16) respectively if October 1st is later in the current school year than the thirty (30) days following the student's admittance). No student shall be withdrawn and readmitted in order to extend the thirty (30) day period. Students may be allowed to continue attending beyond the thirty (30) day period if the student submits a copy of either number 2 or number 4 above.

Students who are in process shall be required to adhere to the submitted schedule. Failure of the student to submit written documentation from a public health nurse or private physician demonstrating the student received the vaccinations set forth in the schedule may lead to the revocation of the student's temporary admittance; such students shall be excluded from school until the documentation is provided.

The District will not accept copies of applications requesting an exemption for the current school year that are older than two (2) weeks based on the date on the application. Students who submit a copy of an application to receive an exemption from the immunization requirements for the current year to gain temporary admittance have thirty (30) days from the admission date to submit either a letter from ADH granting the exemption or documentation demonstrating the student is in process and a copy of the immunization schedule. Failure to submit the necessary documentation by the close of the thirty (30) days will result in the student being excluded until the documentation is submitted.

Exclusion From School

In the event of an outbreak, students who are not fully age appropriately immunized, are in process, or are exempt from the immunization requirements may be required to be excluded from school in order to protect the student. ADH shall determine if it is necessary for students to be excluded in the event of an outbreak. Students may be excluded for twenty-one (21) days or longer depending on the outbreak. No student excluded due to an outbreak shall be allowed to return to school until the District receives approval from ADH.

Students who are excluded from school are not eligible to receive homebound instruction unless the excluded student had a pre-existing IEP or 504 Plan and the IEP/504 team determines homebound instruction to be in the best interest of the student. To the extent possible, the student's teacher(s) shall place in the principal's office a copy of the student's assignments:

- for the remainder of the week by the end of the initial school day of the student's exclusion; and
- by the end of each school's calendar week for the upcoming week until the student returns to school.

It is the responsibility of the student or the student's parent/legal guardian to make sure that the student's assignments are collected.

Students excluded from school shall have five (5) school days from the day the student returns to school to submit any homework and to make up any examinations. State mandated assessments are not included in "examinations" and the District has no control over administering state mandated make-up assessments outside of the state's schedule. Students shall receive a grade of zero for any assignment or examination not completed or submitted on time.

Annually by December 1, the District shall create, maintain, and post to the District's website a report that includes the following for each disease requiring an immunization under this policy:
The number of students in the District that were granted an exemption by the Department of Health from an immunization;
The percentage of students in the District that were granted an exemption by the Department of Health from an immunization; and
The percentage of a population that must receive an immunization for herd immunity to exist.

5.4 -- SMART CORE CURRICULUM POLICY

5.4

In order to ensure that every student has access to a rigorous curriculum, beginning with the 7th grade class of 2004-2005 academic year, the Smart Core Curriculum and the Common Core curriculum will be standard components of the required course of study to graduate from Arkansas public schools.

All students will participate in the Smart Core curriculum unless the parent or guardian waives a student's right to participate. In case of a waiver, the student will complete requirements for a Core diploma.

Parents and Students will be notified of Smart Core curriculum beginning in the 6th grade. Parents may be informed of their curricular choices through counselor meetings, parent teacher conferences, CAPS meetings, PTA, newsletters, student handbooks, etc.

During the spring semester of the sixth grade year, parents will be required to sign the Informed Consent Forms. Informed Consent Forms become a part of the student's permanent record and are attached to the transcript.

Students transferring to other schools and/or districts will have transferred, as a part of their permanent record, the signed Informed Consent Form.

Parents will be provided the option of changing the Informed Consent Form by contacting the building principal in writing. Requests will be honored only if the student can complete the newly selected course of study by the end of their senior year.

Appropriate school personnel including teachers, counselors, and administrators will be informed and trained about the provisions of this policy.

5.9 -- STUDENT EARLY RELEASE

5.9

ACT 675 of 2003 requires students in grades 9-12 to attend school a full school day. Seniors are expected to maximize their senior year by attending a full day of classes. Early release from school for employment reasons will NOT be approved unless there is an extenuating family circumstance that places an extreme financial hardship on the family.

Parents or guardians who have proof of financial hardship due to their senior attending a full day of classes and wanting their child released early from school must complete the "Request for Early Release" form and schedule an appointment with the high school administration. ACT 675 does not affect students attending vocational education training, college courses and school work-release programs.

I. Philosophy and Intent

Grades assigned to students for performance shall reflect only the extent to which a student has achieved the expressed academic objectives of the course. Grades that are aligned with other educational objectives such as the student learning expectations contained in the curriculum frameworks may also be given.

The basis for evaluating student progress is intended to address the need for information concerning the academic progress of students. The purposes of the grading system are:

- To give information for pupil guidance and counseling.
- To show the achievement of pupils.
- To assist in promotion, retention, transfer, and grade placement.
- To inform parents of the progress of their children.
- To help administrators evaluate the effectiveness of the school program.

The grades of a child in foster care shall not be lowered due to an absence from school due to:

1. A change in the child's school enrollment;
2. The child's attendance at a dependency-neglect court proceeding; or
3. The child's attendance at court-ordered counseling or treatment.

II. Report Cards and Grade Reporting

In the Van Buren School District, a report card shall be provided at the end of each grading period, but no less than four (4) times each school year. The report card shall be (a) mailed to the last known address of the student, (b) given to a parent at a parent/teacher conference, or (c) sent home with the student. Parents shall not be required to provide postage or self-addressed envelopes to receive a report card.

III. Grading Scale for Secondary Schools.

The grading scale for students in grades 6-12 shall be:

90 -- 100 A
80 -- 89 B
70 -- 79 C
60 -- 69 D
00 -- 59 F

IV. Determining Grade Point Averages

For the purpose of determining Official Grade Point Averages, the numeric value of each letter grade shall be as follows:

A = 4 points
B = 3 points
C = 2 points
D = 1 point

F = 0 points

The grade point values for Advanced Placement courses shall be one point greater than for regular courses with the exception that an F shall be worth zero points. To receive credit on the 5.0 scale students must take the entire AP course and complete the applicable test offered by the College Board. The 5.0 scale applies to AP or Arkansas Division of Elementary & Secondary Education (DESE) Approved Honors Courses.

For class rank purposes the Grade Point Average policy 5.21 will be followed.

V. Elementary Schools

Student learning in grades K-5 will be reported through the use of a Standards-Based reporting system.

The primary purpose of the K-5 grading system is to communicate to both students and parents each student's level of learning relative to Arkansas Standards. A Standards-Based reporting system helps achieve consistent, accurate, meaningful grades and grades that support learning as defined by Arkansas Standards.

The following ratings indicate a student's progress in relation to the year-end standards.

Level 4 -- Exceeding Standards: Students who exceed the standards demonstrate superior performance (more depth/extension with grade-level work) well beyond proficient grade-level performance. They can apply established reading, writing, science, social studies, mathematics, art, music or physical education skills to solve complex problems and complete demanding tasks on their own. They can make insightful connections between abstract and concrete ideas and provide well-supported explanations and arguments.

Level 3 -- Meeting Standards: Students who are meeting standards demonstrate solid academic performance for the grade level. They can use established reading, writing, science, social studies, mathematics, art, music or physical education skills and knowledge to solve problems and complete tasks on their own. Students can tie ideas together and explain the ways their ideas are connected.

Level 2 -- Approaching Standards: Students who are approaching the standards show substantial skills in reading, writing, science, social studies, mathematics, art, music or physical education skills; however, they only partially demonstrate the abilities to apply these skills.

Level 1 -- Below Standards: Students who are below standards fail to show sufficient mastering of skills in reading, writing, science, social studies, mathematics, art, music or physical education to attain the basic level.

The final grades of students who transfer in for part of a semester will be determined by blending the grades earned in the district with those earned outside the district. Each final grade will be the sum of the percentage of days in the grading period transferred from outside the district times the transferred grade from outside the district plus the percentage of days in the grading period while in the district times the grade earned in the district.

For example: The grading period had forty (40) days. A student transferred in with a grade of eighty-three percent (83%) earned in ten (10) days at the previous school. The student had a grade of seventy-five percent (75%) in our district's school earned in the remaining thirty (30) days of the grading period. Ten (10) days is twenty-five percent (25%) of forty (40) days while thirty (30) days is seventy-five percent (75%) of forty (40) days. Thus the final grade would be $(0.25 \times 83) + (0.75 \times 75) = 77\%$.

5.11 -- HOMEWORK POLICY

5.11

In the Van Buren School District, each child is viewed as a special individual with unique potential, needs, and interests. The district believes it is appropriate to require students to complete reasonable academic work outside the regular instructional day. Such homework shall derive from the philosophy of the district and shall be an extension of classroom instruction.

The purpose of homework shall be to reinforce learning through independent practice. Homework shall not be utilized as initial instruction to new student learning. The following Guiding Principles are hereby established to support teachers and students regarding homework.

Guiding Principles

- Homework must be relevant to instruction in the classroom; its use shall reinforce learning through independent practice.
- Homework should be tailored to the needs of the individual student.
- Prior to being assigned as homework, skills should be taught in the classroom.
- Homework assignments should be reasonable in length considering the age, grade level, and individual needs of the student. Students should not be overwhelmed with homework assignments which are unreasonable in length.
- Students should not be burdened with formal classroom assessments in three or more subjects per day,
- Homework should be purposeful – not busywork.
- Homework assignments should be planned and communicated to students and parents at the beginning of each grading period.
- Homework shall not be assigned for punitive reasons.
- Systems shall be established in each school to monitor the quality, use, and effectiveness of homework.

Homework Monitoring Systems

Under the leadership of the principal, each school shall adopt homework guidelines and procedures as noted below. It is the responsibility of both principal and teacher to ensure that the following homework systems are fully implemented. Monitoring systems will be implemented to ensure balance in homework assigned to students, to ensure assessment practices which do not require students to take multiple tests in any single student day, and to ensure full implementation of the district homework policy.

A. Grades K-4

- a. K-2 students should be assigned no more than 20 minutes of combined homework* per day.
- b. Grade 3-4 students should be assigned no more than 40 minutes of combined homework per day.
- c. Students should not be overwhelmed with multiple classroom assessments on the same day; therefore, grade-level teachers will work with principals and curriculum coaches to ensure that student learning is not formally assessed in more than one content area per day (excluding standardized tests).
- d. Homework will be worth no more than 20% of a student's grade.
- e. Grade-level teachers will work together to ensure that homework assignments and classroom assessments are implemented within the established limits of this policy.

B. Grades 5-6

- a. Grade 5-6 students should not be assigned more than 60 minutes of combined homework per day.
- b. Grade-level teachers will work together to ensure that homework is scheduled and communicated to parents in writing at the beginning of each grading period.
- c. Grade-level teachers will work together to ensure that student learning is not formally assessed in more than one content area per day (excluding standardized tests). Students should not be overwhelmed with multiple classroom assessments on the same day.
- d. Homework will be worth no more than 20% of a student's grade.
- e. Grade-level teachers will work together to ensure that homework assignments and formal classroom assessments are implemented within the established limits of this policy.

C. Grades 7-8

- a. Grade 7-8 students should not be assigned more than 80 minutes of combined homework per day.
- b. Grade-level and subject area teachers will work together to ensure that student learning is not formally assessed in more than two content areas per day (excluding standardized tests and nine-weeks or semester exams). Students should not be overwhelmed with multiple classroom assessments on the same day.
- c. Grade 7-8 teachers will develop a syllabus for each subject taught. The syllabus will include a course description, grading scale, and schedule for homework and formal classroom assessments for each grading period. It is understood that scheduling may be affected by outside events, so some variation in schedules for homework and tests is expected; however, the intent of this system is for teachers to work together to ensure that students are not overwhelmed with homework and/or formal classroom assessments on any single day.
- d. In the development of the course syllabus with its homework and assessment schedules, teachers, curriculum coaches, and principals should ensure that homework assignments in subject areas do not go beyond the 80-minute limit for combined homework.
- e. Homework will be worth no more than 20% of a student's grade.
- f. Grade-level and/or content-area teachers will work together to ensure that homework assignments and formal classroom assessments are implemented within the established limits of this policy.
- g. Long-term student projects will not be considered daily homework; however, teachers will ensure that special projects are given ample time to complete.

D. Grades 9-12

- a. Grade 9-12 students should not be assigned more than 100 minutes of combined homework per day.
- b. Grade-level teachers will work together to ensure that student learning is not formally assessed in more than two content areas per day (excluding standardized tests and semester exams). Students should not be overwhelmed with multiple classroom assessments on the same day.

- c. Grade 9-12 teachers will develop a syllabus for each subject taught. The syllabus will include a course description, grading scale, and schedule for homework and tests for each grading period. It is understood that scheduling may be affected by outside events, so some variation in schedules for homework and tests is expected; however, the intent of this system is for teachers to work together to ensure that students are not overwhelmed with homework and classroom assessments on any given day.
- d. In the development of the course syllabus with its homework and assessment schedules, teachers, curriculum coaches, and principals should ensure that homework assignments in subject areas do not go beyond the 100-minute limit for combined homework.
- e. Homework will be worth no more than 20% of a student's grade.
- f. Grade-level and/or content-area teachers will work together to ensure that homework assignments and formal classroom assessments are implemented within the established limits of this policy.
- g. Long-term student projects will not be considered daily homework; however, teachers will ensure that special projects are given ample time to complete.

Parent Support

The district recognizes that academic achievement is a joint responsibility among the teacher, principal, student, and parent. In all levels of schooling, parents are encouraged to be supportive of student learning and become a partner in independent practice activities designed to help develop student learning. Parents can establish a supportive learning environment in the home by helping establish good study conditions, monitoring the child's study habits, demonstrating a positive attitude toward student work, and providing other support to the child as needed.

Parents may be asked to sign a document verifying reading logs, agendas, or other student expectations; however, whether the parent signs the document will have no impact on the student receiving credit for the homework or other assignment.

*For the purposes of this policy, combined homework is defined as the total amount of homework assigned to a student in all subject areas in one day.

5.13 -- PROMOTION POLICIES

5.13

The promotion of pupils in the elementary school will be determined by the teacher when the teacher feels the pupil will be able to do advanced work. This would generally mean that a student who is regular in attendance for the year and makes passing grades will be promoted. Promotion policies will take into consideration the individual pupil's abilities, the school's objectives, and the curriculum and social conditions of the next grade.

Approved by Board of Education 08/21/12

GOAL: To enhance the learning experience of students graduating from Van Buren High School by:

- raising expectations for all students,
- improving curriculum to better prepare students for post-secondary education and the world of work, and
- adding rigor and value to the honors curriculum.

The following recommendations do not alter the standard graduation requirements as set forth by the Arkansas Division of Elementary & Secondary Education nor the requirements for the Arkansas Academic Challenge Scholarship.

Students who meet the requirements for the College Preparatory Diploma will meet the entrance requirements for most colleges; however, many colleges have unique entrance requirements. It is the responsibility of the student to determine the entrance requirements of the appropriate college or university and plan an appropriate high school course of study. College entrance requirements may be found in catalogs provided by the school counselor.

Research shows a direct correlation between successful completion of college and involvement in the College Board's Advanced Placement program. Students who plan to enter a traditional four-year college degree program should enter the college prep with honors or college prep with high honors diploma plan. Students who plan to enter a two-year post secondary program should enter the college prep diploma program (as a minimum). Students who do not plan to go to college should select high school courses of study that will prepare them for the occupations they plan to pursue. The general diploma plan is recommended for those students who are not planning to pursue a post-secondary degree or training program.

5.14.1—CONCURRENT CREDIT

5.14.1

A ninth through twelfth grade student who successfully completes a college course(s) from an institution approved by the Arkansas Department of Education (ADE) shall be given credit toward high school grades and graduation at the rate of one high school credit for each three (3) semester hours of college credit. Unless approved by the school's principal, **prior to enrolling for the course**, the concurrent credit shall be applied toward the student's graduation requirements as an elective.

A student who takes a three-semester hour remedial/developmental education course, as permitted by the ADE Rules Governing Concurrent College and High School Credit, shall be the equivalent of one-half unit of credit for a high school career focus elective. The remedial/developmental education course cannot be used to meet the core subject area/unit requirements in English and mathematics.

Participation in the concurrent high school and college credit program must be documented by a written agreement between:

- The District's student, and his or her parent(s) or guardian(s) if the public school student is under the age of eighteen (18);
- The District; and
- The publicly supported community college, technical college, four-year college or university, or private institution the student attends to take the concurrent credit course.

Students are responsible for having the transcript for the concurrent credit course(s) they've taken sent to their school in order to receive credit for the course(s). Credit for concurrent credit courses will not be given until a transcript is received. Transcripts for students who take concurrent credit courses are to be received by the school within (20) school days of the end of the semester in which the course is taken. Students may not receive credit for the course(s) they took or the credit may be delayed if the transcripts are not received in time, or at all. This may jeopardize students' eligibility for extracurricular activities, or graduation.

Students will retain credit earned through the concurrent credit program which was applied toward a course required for high school graduation from a previously attended, accredited, public school.

Any and all costs of higher education courses taken for concurrent credit are the student's responsibility.

Adopted by Board of Education 08/09/16

5.15.1 – SEMESTER TEST EXEMPTION

5.15.1

Students who have an A, B, or C in a class and have only three (3) excused absences (these include medical) or less in that class have the option of being exempt from the semester test in that class. Any unexcused absences, out of school suspensions or ISS (in school suspensions) will make a student ineligible for the exemption. School business will not count as an absence. If a student who is exempt chooses to take the test their grade may not be lowered from the result of that test. Pre-AP, AP, or Concurrent may not be exempt (teacher/class discretion).

5.17 -- PRAYER

5.17

It is the policy of the Van Buren School District that there shall be no school sponsored prayer at any class or function at which attendance is compulsory.

5.21 -- GRADE POINT AVERAGE

5.21

Ending with the graduating class of 2019-2020, all courses counted toward the required credits of the diploma will be included in the Grade Point Average (GPA) calculation.

Van Buren School District utilizes two ranking methods for GPA as defined below:

- Rank One is the calculation of GPA mandated by the Arkansas Department of Education and college reporting. This method uses a 4.0 credit for all courses except those Advanced Placement (AP) courses weighted on the 5.0 scale. Local credits are not included in the Rank One GPA.
- Rank Two is the calculation of GPA for local purposes only. This method uses a weighted rank of 5 for AP, Concurrent Credit and Engineering* courses and 4.5 for Pre-AP courses to determine class rank. Local credits are included in the Rank Two GPA.

Courses not counting for credit will not be counted in the GPA.

Beginning with the graduating class of 2020-2021 GPA will be calculated by methods mandated by the Arkansas Department of Education and college reporting. This method uses a 4.0 credit for all courses except those Advanced Placement (AP), International Baccalaureate (IB) courses, or honors or concurrent credit college courses weighted on the 5.0 scale. Students in grades 7-12 who take advanced placement courses, International Baccalaureate courses, or honors or concurrent credit college courses approved for weighted credit by the Arkansas Department of Education shall be graded according to the following schedule.

A = 100 – 90

B = 89 – 80

C = 79 – 70

D = 69-60

F = 59 and below

For the purpose of determining grade point averages, the numeric value of each letter grade shall be

A = 5 points

B = 4 points

C = 3 points

D = 2 point

F = 0 points

For a student to be eligible to receive weighted credit for an AP, or IB course, the student's course must have been taught by an Arkansas licensed teacher who has received the appropriate training required by Arkansas statute and ADE Rule or, for an AP teacher, is in the process of completing an Additional Training Plan.

Additionally, for students taking AP or International Baccalaureate courses to receive weighted credit they must take the applicable AP or IB examination after completing the entire course. Credit shall be given for each grading period during the course of the year, but shall be retroactively removed from a student's grade for any course in which the student fails to take the applicable AP exam. Students who do not take the AP exam shall receive the same numeric value for the grade he/she receives in the course as if it were a non-AP course.

"Honors Courses" are those courses that have been approved by a Department of Education Committee as honors courses. Honors courses must stress higher order learning and be offered in addition to curriculum offerings required by the Standards for Accreditation, Arkansas Public Schools.

Students who transfer into the district will be given weighted credit for the Advanced Placement courses, International Baccalaureate courses, honors courses approved by the Arkansas Department of Education, and concurrent college courses taken for weighted credit at his/her previous school(s) according to the preceding scale.

Credit Recovery

Credit Recovery is the repeating of a credit that was failed or for which a student received NC (no credit). Students must get principal approval for credit recovery. Credit recovery is pass/fail and is not included in the GPA.

*Students must complete the entire Engineering course of study to receive weighted credit.

The health and physical well-being of Van Buren School District students directly affects their ability to learn. Childhood obesity increases the incidence of adult diseases occurring in children and adolescents such as heart disease, high blood pressure and diabetes. The increased risk carries forward into their adulthood. Research indicates that a healthy diet and regular physical activity can help prevent obesity and the diseases resulting from it. It is understood that the eating habits and exercise patterns of students cannot be magically changed overnight, but at the same time, the board of directors believes it is necessary to strive to create a culture in our schools that consistently promotes good nutrition and physical activity.

The problem of obesity and inactivity is a public health issue. The board is keenly aware that it has taken years for this problem to reach its present level and will similarly take years to correct. The responsibility for addressing the problem lies not only with the schools and the Division of Elementary and Secondary Education, but with the community and its residents, organizations and agencies. Therefore, the district shall enlist the support of the larger community to find solutions which improve the health and physical activity of our students.

Wellness Committee

To enhance the district's efforts to improve the health of our students, a District Wellness Committee shall be formed. It shall be structured in a way to ensure age-appropriate recommendations are made that correlate to the District's grade configurations by establishing a wellness committee at each school in addition to the district committee and include representatives from each appropriate grade level group (elementary, middle, and high school) on the membership of the district committee. The District Wellness Committee shall have the powers and responsibilities delegated to it by statute and Rule and are incorporated into this policy by reference. The overarching goal of the committee shall be to promote student wellness by monitoring how well the District is doing at implementing this policy. The district wellness committee shall use modules 1, 2, 3, 4, 10 and 11 of the Centers for Disease Control (CDC) School Health Index as a basis for annually assessing each school's progress toward meeting the requirements of this policy. The results of the annual assessment shall be included in the school district's support plan (SDSP), provided to each school's principal, and reported to the board. Goals and objectives for nutrition and physical activity shall also be included in the SDSP.

The District Wellness Committee shall be made up of individuals from the following groups to the extent interested persons from each group desire to be included in the development, implementation, and periodic review of the District's wellness policy:

- Members of the District's Board of Directors;
- School administrators;
- School nutrition personnel;
- Teacher organizations;
- Teachers of physical education;
- Parents;
- Students;
- Professional groups (such as nurses);
- School health professionals (such as school nurses, school counselors, and social workers); and
- Community members.

The District Wellness Committee shall provide written recommendations to the District's Child Nutrition Director concerning menus and other foods sold in the school cafeteria. Such recommendations shall be

based, at least in part, on the information the Committee receives from the District on the requirements and standards of the National School Lunch Program and from menus for the National School Lunch Program and other food sold in the school cafeteria on a quarterly basis.

The District Wellness Committee will meet at least quarterly. Meeting dates for the District Wellness Committee will be placed on the District's calendar.

School Health Coordinator

To assist the District Wellness Committee in ensuring that the District fulfills the requirements of this policy, a District Level School Health Coordinator (Designated District Official) shall be appointed. In addition, a school level School Health Coordinator shall be appointed who shall be responsible for assisting the District Level School Health Coordinator in ensuring that each school fulfills the requirements of this policy.

Goals

In its efforts to improve the school nutrition environment, promote student health, and reduce childhood obesity, the district will adhere to the DESE Rules Governing Nutrition and Physical Activity Standards and Body Mass Index for Age Assessment Protocols. To promote nutrition, physical activity, and other school based activities that will improve student wellness, the District, working with the Wellness Committee, has established the following goals:

17. Implement a grade appropriate nutrition education program that will develop an awareness of and appreciation for nutrition and physical activity throughout the curriculum;
18. Enforce existing physical education requirements and engage students in healthy levels of vigorous physical activity;

Van Buren School District Parent and Family Engagement Plan 2021-2022

The Van Buren School District will form a district parent and family engagement committee each year to create a parent and family engagement plan and implement parent and family engagement opportunities and activities as determined by the committee and reflective of the needs of students and families. The committee will consist of parents, teachers, and other community members.

The District Parent and Family Engagement Coordinator will conduct family engagement meetings twice a year where the committee will review the plan and make suggestions. The district parent and family engagement plan will be made available to families and the community. The complete plan is posted on the Van Buren School District Website.

A minimum of 1% of the Title I funding the district receives will be reserved for parent and family engagement, with 90% of that 1% going to the schools in the district. Parents are encouraged to be involved in the decisions regarding how funds reserved for parent and family engagement are allotted for parental involvement activities.

During the annual spring district parent and family engagement committee meeting, a review of the effectiveness of the plan and an evaluation of the plan will be conducted to identify barriers, needs and strategies to be addressed during the following school year. Data from the District's annual parent survey will be tabulated and reviewed by the committee. The committee will have the opportunity to review the actual survey instrument and make changes to the content as needed.
